

Rawan Aliliwi

UX/UI DESIGNER | UX RESEARCHER | ARCHITECT

rawan.aliliwi96@gmail.com | [Portfolio](#) | Nekkvägen, Stockholm | +46736971893

SUMMARY

UX/UI designer and architect with a strong ability to turn complex systems into clear, intuitive digital experiences. Experienced in user research, workflow analysis, prototyping, and design systems. Brings structured thinking, visual clarity, and a practical mindset to cross functional product teams.

WORK HISTORY

UX/UI Designer | Internship

Grand GRC (Advisense Group) | Nov 2024 – Mar 2025

- Redesigned complex compliance and risk management workflows into clear, user friendly digital flows
- Built and maintained a scalable Figma design system used across multiple product areas
- Created high fidelity prototypes for usability testing, internal reviews, and stakeholder alignment
- Worked closely with developers to translate requirements into accessible, production ready UI
- Improved clarity of product logic through structured layouts and consistent interaction patterns

UX/UI Designer | Freelancing

Barnloppis i Deje | Aug 2024 – Oct 2024

- Designed a mobile first booking platform from concept to final UI
- Conducted user research to identify friction points and navigation issues
- Simplified user flows to improve clarity, engagement, and booking efficiency
- Delivered a complete, handoff ready design solution
