

ROLLER. SPINNER. ONE WHEEL.

2-in-1 transport wheel for collision shops, tow operators and service dealers.

1,000 KG PER WHEEL • 4, 5 & 6-LUG • SHOP & TERRAIN ONLY

WHAT IT IS

EZ Roller-Spinner is a 2-in-1 transport wheel. It mounts on the hub with the car's own bolts and nuts. No dollies, no second person. Works on inclines, gravel and uneven concrete.

TWO MODES

01 ROLLER MODE. BOLTS IN.

Wheel is locked to the hub. Roll the car around the shop or lot at up to 8 km/h. For cars without wheels or tyres.

02 SPINNER MODE. BOLTS OUT.

Remove the centre bolts. The wheel spins freely on the Spinner Ring. Push or pull cars locked in park, with locked brakes or no power. By hand, max 3 km/h.

WHERE IT WORKS

03 IN THE SHOP

04 ON THE ROAD
