FEATURES

PAY ANYWHERE

Matching symbols pay anywhere on the grid, with no fixed paylines. After each win, the winning symbols are removed and replaced, allowing new combinations to form.

SCATTERS

Scatter symbols can land anywhere on the grid. Landing the required number triggers the Free Spins Bonus.

FREE SPINS BONUS

The bonus awards a series of Free Spins with the Tumble mechanic active throughout. Each winning tumble can create another winning combination within the same spin.

MULTIPLIERS

Multiplier symbols are active during Free Spins. When a winning combination lands with a Multiplier symbol on the screen, it increases the total win for that round.
