Professional Experience

2024-2025 Lead Product Designer At “Revuze”

- Designed and delivered complete product solutions efficiently, balancing speed with high-quality outcomes in a **fast-paced startup environment**.
- Established and maintained comprehensive design guidelines and **complex**, integrated systems to ensure consistency and scalability across multiple products.
- Led the end-to-end design process, including research, **ideation**, prototyping, and usability testing, to create user-centered, **market-ready** products.
- Collaborated closely with product managers, **engineers**, and stakeholders to align designs with business goals and user needs.
- Created functional prototypes using **advanced Figma skills** to support design validation and development.
- Contributed to high-level **strategic discussions**, actively participating in roadmap planning and key decision-making processes.

2021-2024 Product Designer At “Muze”

- Led end-to-end design processes with a focus on user-centered design, conducting user research and usability testing.
- Created high-fidelity wireframes, interactive prototypes, and responsive designs across **various devices**.
- Collaborated with **cross-functional teams** to ensure alignment with business goals and technical feasibility.
- Acted as the **primary client contact**, leading meetings, presentations, and design reviews.
- Contributed to the studio’s magazine and organized design workshops to enhance team skills and innovation.

2021-2022 Product Designer At “Tripsguard”

- Led the company’s design vision.
- Modified and revised existing designs.
- Created a **design system** while maintaining and delivering new and existing features.
- Coordinated ongoing work and communication with all company departments—development, content, marketing, social media, etc.
