

industrial hi-visibility safety apparel

www.GSSsafety.com

ABOUT GSS SAFETY

GSS Safety is a manufacturer specializing in a variety of **ANSI/ISEA** approved Hi-Visibility apparel including vests, t-shirts, waterproof jackets, waterproof rain gear, accessories, and much more. Our goal is to constantly strive to protect workers from serious hazards caused by low visibility.

Our products have been tested by most International standards like **ANSI/ISEA 107-2020**. We offer many styles and designs that will satisfy the needs of our customer base. By being a direct manufacturer, we can provide fast turnaround to all orders. We can also provide private labeling logo imprinting, custom designs and unique packaging upon your request.

If you have any questions or would like to have a catalog sent to you, please feel free to contact us at sales@GSSsafety.com.

COLORFUL PPE

INCIDENT COMMAND SAFETY VESTS IN ALL COLORS
CORPORATE COLORS FOR COMPANY IDENTITY
DIFFERENT COLORS FOR DIFFERENT GROUPS IN
WORKING FIELD

QUARTZ

BRAND INTRODUCTION

QUARTZ is a NEW collection that specialized in combining functional workwear with high visibility. We understand the importance of visibility for all field workers. To be seen is and will continue to remain our mission to protect more field workers.

ONYX

BEYOND THE BASICS

ONYX collection offering high performance fabrics and unique designs. This collection delivers quality with excellent value plus feature-filled styles.

LIL' CECE

THE STORY OF LIL CECE

Lil Cece is a little energetic girl running here and there. Being a sales mom specialized in reflective apparel for adults, I have been always asking myself if children should wear high visibility clothing, my answer is yes.

COMPANY STATEMENT

WE STAND OUT FROM THE CROWD

INCIDENT COMMAND SAFETY VESTS IN ALL COLORS

In emergency situations it's important for people to quickly identify groups of emergency responders and volunteers in a certain area. Incident command vests allow different groups to wear uniquely colored reflective vests so they can be easily identified by teams, volunteers, or civilians. This is crucial when tensions are high, and fight or flight emotions are running high during critical emergencies or accidents.

CORPORATE COLORS FOR COMPANY IDENTITY

Research has shown that a signature color can increase brand recognition by 80%. Even without seeing their logo, most people could recognize a Starbucks' drink by its characteristic green straw. According to Reboot's study, when shown a selection of five made up company logos 78% could recall the primary color of the logo, compared to only 43% who were able to remember the name.

DIFFERENT COLORS FOR DIFFERENT GROUPS IN WORKING FIELD

We see more companies using colorful vests in their work place to identify the different groups of people. It is more efficient for co-workers and supervisor to know their groups. For example, in Amazon warehouses, people wear red colored vests for all new hires and then switch to lime vests after they complete their training.

NOTICE THE DIFFERENCE

OUR COMMITMENT

WE PROTECT THE PLANET THE SAME WAY WE PROTECT YOUR SAFETY!

GSS, Emphasis Global, Safety, Sustainability.

GLOBAL ENVIRONMENTAL PROTECTION

We started GSS in 2014, we are always trying our best to protect everyone's safety against low visibility hazards. With the global environmental issues raising, we realized that the Earth needs our attention, our protection, and our action as well as our consumers. From 2023, we decided to contribute ourselves more to help to protect our planet. The GSS Planet is the long-term plan to protect our earth and protect the future of our new generation.

MAKING A DIFFERENCE

OUR PARTNERS

OVERVIEW

Soft, durable fibers deliver uncompromised warmth, loft and packability.

The industry's first recycled binder fibers give the insulation structural integrity and stability, delivering elevated performance in a 100% recycled synthetic insulation

PERFORMANCE

felt by you

WARMTH

our ultra-fine fibers are designed to trap warmth

DRY

our water resistant products are created with fibers that are inherently hydrophobic + repel water

SOFT

the thinner the fiber, the softer the material. Primaloft fibers are thinner than a human hair

DURABLE

our materials are strong enough to withstand the rigors of military use

LIGHT

ultra-fine fibers create lightweight, thermally efficient materials

WHAT IS REPREVE? EARTH-FRIENDLY

REPREVE is the world's number one brand of recycled performance fiber. Our high-quality fibers are made from 100% recycled materials, including post-consumer plastic bottles and pre-consumer waste. They are also certified and traceable.

We created the **REPREVE** brand to foster a sustainable world by diverting plastic bottles—billions of them—from landfills and oceans. We also collect and reuse industrial waste, starting with our own. Compared to virgin fiber, **REPREVE** helps to offset the use of petroleum, emitting fewer greenhouse gases and conserving water and energy in the process.

MAKING A DIFFERENCE

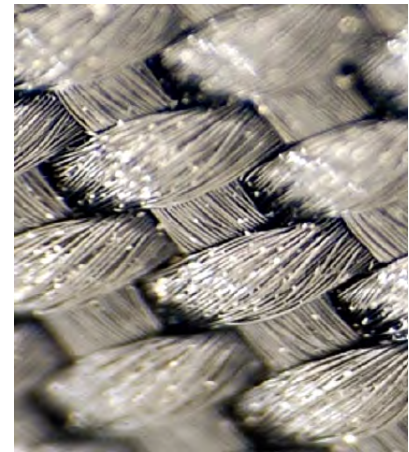

GSS SEC

FIRST 50/50 COTTON/RECYCLED
POLY BLENDED SAFETY WEAR

9501 SHORT SLEEVE TEE SHIRT

REPREVE FIBRE CONSTRUCTION

LEADING THE WAY

GSS SAFETY is announcing our first recycled polyester blended Safety T-shirt. The fabric make-up is a 50% **REPREVE** Recycled Polyester blend with 50% cotton. The T-shirt has a cotton blended feature with **ANSI/ISEA** certification. This product will help all the field employees to have a real cotton feel shirt.

REPREVE®

UNIFI / REPREVE

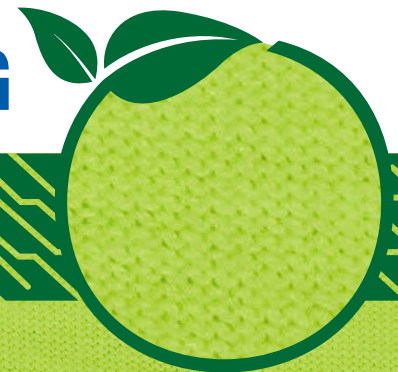

REPREVE is the world's number **ONE** brand of recycled performance fiber. The high-quality fibers are made from 100% recycled materials, including post-consumer plastic bottles and pre-consumer waste. **Unifi** created the **REPREVE** brand to foster a sustainable world by diverting plastic bottles—billions of them—from landfills and oceans. They also collect and reuse industrial waste, starting with their own. Compared to virgin fiber, **REPREVE** helps to offset the use of petroleum, emitting fewer greenhouse gases and conserving water and energy in the process.

GSS – ADDING RECYCLE INTO SAFETY

GSS Safety has been working tirelessly on developing our safety apparel to protect our field employee's visibility. Now, we recognize that our planet needs this same protection as well as our field workers. We decided to direct our efforts to bring recycled apparel into the safety industry.

POWER TO PROTECT EVERYTHING

GSS SEC 
POWERED BY **GSS**

GSS ECO- GREEN, SAFETY. SUSTAINABILITY

We have developed a new mission of “GSS”, **Green. Safety. Sustainability.** **GSS ECO** is our new sub-brand that specializes in recycled fabric. We have implemented these steps within **GSS**:

- We will partner with the world’s leading recycling companies, like **Unifi**, to bring high quality fibers to make safety apparel
- We will reduce our package usage, starting with bulk, master packages
- We will use recycled material for all our plastic polys, paper tags, and cardboard boxes
- We will reduce the printing impact, by using as little ink as we can

9501 CLASS 2

9521 CLASS 3

- 50% cotton blended with 50% **REPREEVE** recycled polyester.
- 50 washes segment reflective tape to extend lifetime of shirt.

6-7 water bottles make 1 shirt.

ONYX

8505/8507

8511/8513

- Soft, durable fibers deliver uncompromised warmth, loft and packability
- High-performance insulation made from 100% post-consumer recycled material
- 10 recycled bottles go into making one jacket
- 50 wash cycles on reflective tape to extended the lifetime

ONYX, INTRODUCE PRIMALOFT

BRING THE TECHNOLOGY INTO SAFETY APPAREL

Reflective apparel is an essential part of the uniform that protects all field workers, and enables their safe visibility in the workplace. Most of the **GSS** consumers work outside in environments such as the highway, airport, construction sites, etc. Protecting field workers from cold weather is as important as the need to be seen in winter. After a long research period and evaluation, we decided to implement **PRIMALOFT** into our **ONYX** collection, to take it to the next level of performance.

PrimaLoft, as the leading manufacturer in recycled products, has spent over 40 years developing innovative insulations and fabrics to keep you warm, dry and comfortable. They are the number one brand in insulation in today's market. By applying **PrimaLoft Black** insulation into our products, they have improved the quality of our **ONYX** jackets by making them warmer, as well as lighter. And not forgetting, reducing the effect on the environment, by using 100% post-consumer recycled materials in the insulation.

Moreover, **PrimaLoft** believes premium performance does not need to come at the expense of the planet. **PrimaLoft** engineers are in the lab developing revolutionary technologies that also reduce our impact on the earth.

“At PrimaLoft, we believe you shouldn’t have to choose between what’s good for you and what’s good for the planet. Every product we make is a fusion of material innovation, world class performance and sustainability.”
