

Yacht ladder 700 standard

Material: Carbon fiber, AISI 316 stainless steel mirror polished

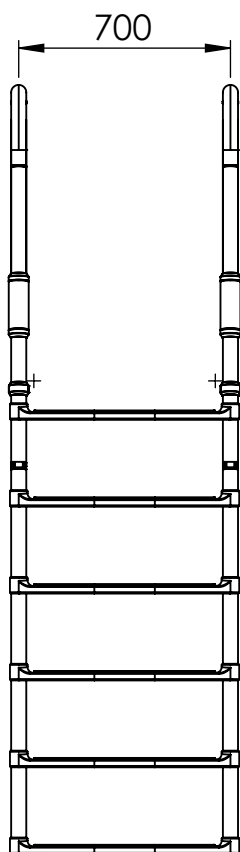

2000003229

Description

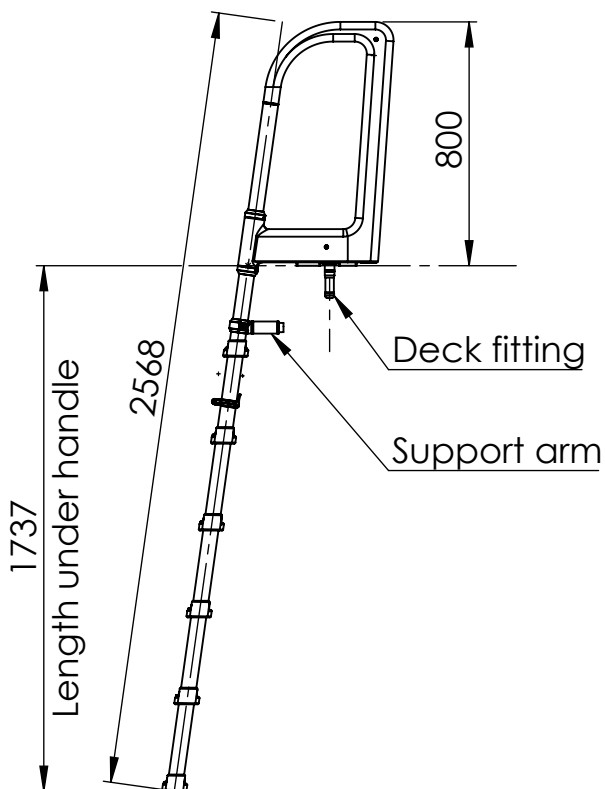

The Xquip yacht ladder is safe and robust, yet light and foldable so that it can easily be stowed away.

The Xquip yacht ladder is manufactured entirely from carbon fiber. It is available in matt or clearcoat finish, or painted in any desired colour.

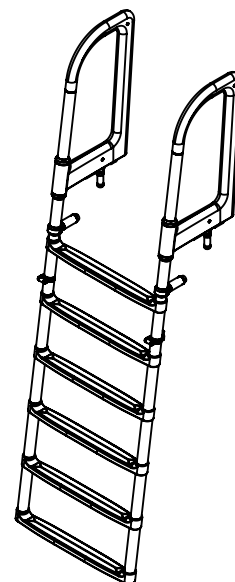

We offer padded storage bags and / or wall mounts to be able to store the ladder neatly.
