What is Goa Edition?

4 days

7 speakers

15 participants

1 direction

Who is it for?

Women building at the edge of AI, founders, CXOs, senior leaders, investors, and experienced operators who want to lead confidently & with clarity in AI era, while building meaningful relationships with extraordinary cohort of women.

Why you should come?

Move beyond AI tools to understand how the best leaders are using AI to rethink products, organizations, and growth. It is time to be witnessed by the peers who understand the weight of what you are building and help you build with clarity.

What will you gain?

Cut through the AI noise with practical insights, strategic clarity, a trusted network of exceptional peers and mentors, and a 90 day roadmap to lead with confidence in an AI-first world.

Why 4 days residency?

You can't redesign how you lead between Zoom calls. Four uninterrupted days create the depth required for strategic thinking, hands-on building, grounding with intention and meaningful relationships.

From this July to next June, your mentors & peers stays invested in your goals, progress, and leadership journey

Beyond 4 days

You don't leave AI Village with memories of a good residency. You leave with assets that keep working long after you've landed home.

1. AI personal brand of advisors

Leadership is isolating, and most advice arrives filtered by politics or hierarchy. Leave with a trusted circle of founders, CXOs, and investors who pressure-test your decisions and hold the belong in a boardroom, long after the four days end.

2. A Blueprint for building AI-ready workplaces for women

A working playbook of principles, frameworks and practices. Built to help you shape inclusive, AI-native teams and to strengthen how women lead and thrive inside your organisation.

3. A 30-60-90 day leadership roadmap

A structured plan built around your own strategic challenge, clear priorities, decision frameworks and the accountability to move from insight into execution.

4. A Global Village

Standing membership in a growing community of exceptional women across India, Spain, the UK and UAE, sharing opportunities, solving problems together and reconvening at future residencies.

6-9 AUGUST 2026

Why AI Village?

You don't join AI Village to collect contacts or learn another AI tool.

You join because there comes a point in every leader's journey when access is no longer the challenge. Finding the right people is.

The people who will remember your ambition when you're too tired to remember it yourself. The people who quietly say, "I see what you're building. How can I help?" and remind you, what's your edge in this AI-era.

That's what a village has always been. And that's what we're building together.

Learning Experience

AI Strategy Workshops

Identify high-impact AI opportunities, prioritise investments and build an AI roadmap.

Working Labs

Hands-on sessions. Solve real AI challenges from your own business or role. Build practical frameworks and action plans.

Executive Dialogues

Confidential conversations on leading AI change, and high-stakes decisions.

Founder Hot Seats

A confidential problem-solving session. Founders work alongside peers, investors and VCs.

Fireside Conversations

Thought-provoking dialogues. Explore future of leadership, innovation and responsible AI.

AI Tool Studios

Explore, test and build with the most effective AI tools and workflows.

6-9 AUGUST 2026

Village Experience

Curated Dinner Conversations

Dinners designed to spark meaningful conversations, unexpected collaborations and relationships that continue long after the residency.

Morning Grounding

Begin each day with mindful movement and reflection to create the clarity, focus and presence.

Walking Conversations

You'll be paired with someone outside your industry. You'll each carry one question you've been avoiding.

Reflection Time

Dedicated pauses throughout the residency to process insights, capture ideas and translate learning into personal action.

Small Circle Dialogues

Vulnerability and shared experiences lead to deeper learning and lasting connections.

Sunset Conversations

Where some of the residency's most authentic ideas, collaborations and friendships naturally emerge.

DAY 0

6-9 AUGUST 2026

6.Aug.2026

BUILDING THE ROOM

Check-in

Arrive anytime after 12:00pm and settle in at your pace.

Welcome dinner

No pitches, No job titles, everyone introduces themselves with an honest question instead of an introduction.

By end of the meal, the space will already feels less like strangers and more like people you have already known for a while.

Book your spa slots on the day.

DAY 1

6-9 AUGUST 2026

7.Aug.2026

FROM EXPERT TO ENTERPRISE LEADER

Morning

Grounding Session

Yoga and movement to open the day

Executive Keynote

The AI economy: Where will value be created over the next decade?

Working Session

Where can AI create meaningful business value and AI framework to measure outcome within my function.

Afternoon

Personal Branding

A working session on building your presence and voice as leader in the AI era.

Executive Dialogue

How engineering and AI leaders influence CEOs and business strategy

Founder Conversation

What creates lasting advantage and what frameworks are used by investors to measure AI first startups.

Evening

Fireside Rountable

Government, grants and the startup ecosystem.

Reflection Walks

Paired walking chats. Ask questions you've been avoiding.

Closed-door Dinner

What are we pretending is working in AI but actually isn't?

Book your spa slots on the day.

DAY 2

6-9 AUGUST 2026

8.Aug.2026

BUILDING AI-NATIVE ORGANISATIONS

Morning

Energy work

A movement session to open the day.

Working Session

From macro AI trends to your build brief; translate your problem statement to what's need to be built.

Building Lab

Building against your brief, using low-code methods.

Afternoon

Strategy Lab

Frameworks to know if your company is AI native, powered or automated.

Leadership Dialogue

Building the commercial acumen, strategic influence and executive presence.

Responsible AI

A working look at UNESCO's framework for responsible AI.

Evening

Fireside chat

- Are AI teams over-hired?
- Is AI strategy becoming another corporate theatre?
- VC's view: How they decide where to place capital?

Dinner conversation

The ability to stay aligned with who you are, no matter what the AI world demands.

Book your spa slots on the day.

DAY 3

6-9 AUGUST 2026

9.Aug.2026

LEADING THROUGH DISRUPTION

Morning

Energy work

A movement session to open the day.

Working Session

Designing your AI leadership thesis. Your 30.60.90 day plan and what do you want to become known for over the next five years.

Afternoon

Simulation

You have ₹100 Crore to transform the business.
Where do you invest?
Where do you automate?
Where do you stop?

Executive mixer

The residency concludes with an exclusive evening featuring additional CXOs, founders, and AI leaders sharing real-world lessons on leading AI transformation.

Evening

Salsa socials

An internationally loved tradition where every dance begins a new conversation.

Gala dinner

A memorable finale celebrating the people, ideas, and friendships you've found.
