## EXPERIENCES

### UX Designer / Opteamis

September 2021 - november 2024

As part of the product department, I was responsible for the design of three user areas (customers, service providers and internal) for an IT service sourcing, management and contracting platform. My assignments :

- Working with the PO to define User Stories
- Redesign of page structure and information architecture
- Prototyping user paths (paper & Figma)
- Conducting workshops, tests and user interviews
- Creation and management of the UI and design system
- Presenting new concepts and UX positioning internally

### UX Designer / apprenticeship / Odigo

January 2018 - september 2020

As part of an international team composed by UX Lead, a Design System Manager and a dozen of UX/UI Designers, I was tasked with redesigning the administrator backoffice and agent console for a CCaaS (Contact Center as a Service) software for major accounts. My assignments:

- Concept prototyping and UI design on Sketch
- Managing the design system on Abstract
- Moderating and presenting design reviews in English
- Training & coaching for new interns of the French squad

### Graphic Designer / internship / Epicery

November 2015 - may 2016

### Graphic Designer / internship / Bonnet de jour

July - september 2015

## EDUCATION

### Mastère Expert en stratégie digitale / Digital Campus Paris

2019 - 2020

### Mastère User Exeperience Design / ICAN Paris

2018 - 2019

### Bachelor Chef de projet multimédia / Digital Campus Paris

2015 - 2018
