THE CHALLENGE

Schools face numerous challenges when integrating technology into their classrooms. Managing a fleet of Apple devices efficiently, ensuring seamless deployment and updates, and providing ongoing support can be overwhelming for educators and administrators.

Schools often struggle to find a reliable partner who understands the unique needs of educational environments and can offer a comprehensive end-to-end solution.

THE SOLUTION

At Beyond the Box, we are the trusted guide that simplifies Apple in Education for your school. Our team of certified experts is well-versed in educational technology and have been supporting schools for over 20 years.

We provide tailored, innovative, and reliable solutions that give schools the ability to harness the full potential of their Apple products, creating a seamless and reliable technology-driven learning experience.

Tailored Solutions

Our approach is not one-size-fits-all. We collaborate closely with your leaders to understand your unique needs and goals. Our team then designs customised Apple in Education solutions that empower your staff and engage your students.

We do our best work when we are involved in 'bigger picture' planning – we want to help your school deliver your AAP and long term strategic goals.

From device selection to software integration and professional development, we ensure your technology investment aligns perfectly with your educational vision.

PROCUREMENT SOLUTIONS

The Right Device

Choosing the right Apple devices for your school is crucial for success. Our experts have extensive knowledge and experience, helping you select the most suitable devices based on your curriculum requirements, approach to teaching & learning, and budget considerations. We ensure that each device serves a specific educational purpose, maximising its impact in the classroom.

Parent Purchase Portals

We can tailor user-friendly parent purchase portals that allow parents to conveniently purchase Apple devices and accessories for their children directly from the school's recommended list. This streamlined approach ensures students have the right technology, and the payment > delivery > deployment process runs smoothly for all involved.

Robust BYOD programs

Cases, accessories and storage

Bring Your Own Device (BYOD) Programs

Harness the power of student-owned technology with our customised Bring Your Own Device (BYOD) programs. Beyond the Box helps educational institutions create a secure and integrated environment, allowing students to use their personal Apple devices for learning. Our expertise ensures a seamless blend of school-owned and student-owned technology, enhancing the educational experience for all.

Durable Protection and Accessories

We understand that students can be enthusiastic learners, which is why we offer durable and practical cases and accessories designed to protect your Apple devices from everyday wear and tear. Our protective solutions not only extend the life of your devices but also provide a safe and user-friendly experience for both students and educators. Storage trolleys and cabinets are also available for in-school charging and safe-keeping.

DEPLOYMENT AND MANAGEMENT

Streamlined Integration

Seamless integration of Apple devices into your educational environment is crucial to a successful device program.

Our streamlined deployment process, powered by Mobile Device Management (MDM) solutions like Jamf, guarantees smooth setup, configuration, and ongoing management. We handle the technical complexities so your educators can focus on what matters most - teaching & learning!

JAMF DEVICE MANAGEMENT + PROTECTION

Eyes on the Whole Picture

We understand that effective device management goes beyond individual devices. Beyond the Box supports full stack operations, ensuring your devices fit seamlessly into your school's technical ecosystem.

From single sign-on (SSO) to firewall and proxies, we can take care of the technical details, ensuring your technology environment is secure and devices are ready for the classroom.

REPAIRS AND SERVICING

Dependable Support

Our commitment to reliability extends to our repair and servicing program. As an Authorised Apple Service Centre, our certified technicians have the expertise to diagnose and repair Apple devices promptly.

Minimise downtime and get your students & staff up and running in no time.
