ELIXIR

Cold-pressed cone oil is registered under the name Elixir MEGRE - a product that has no analogues in the world in terms of the power of cleansing and saturating the body, its properties are confirmed by a patent and clinical trials of the Russian Academy of Medical Sciences. Production, from the collection of cones to packaging, is carried out in the taiga to exclude even minimal impact from the urban environment.

FIRST THERE WAS BOOKS

"Having read the books by Vladimir Megre "Ringing Cedars of Russia", I decided to make cedar oil, which is mentioned in them. I created it for myself and gave it to others. Doing this business was not the goal of my life, but when people sent letters of gratitude for what we do, telling how oil helps, gives strength, I realized what I should do and what I should devote myself to. How great it is to feel that you bring health to people!"

Сергей Мегре, основатель Кедрового Дома и создатель Эликсира Мегре.

THEN THERE WAS AN IDEA!

I WANTED TO CREATE OIL FROM THE CONE to see and try it. Sergey, who noticed my look, asked: "Now, we will probably crush the bump?" I answered: "Yes!" We put the bump in a linen bag and loaded it into the press. A very long wait began.

And finally, the first drop of this unique Elixir appeared. I was itching to try it out and when I did I realized that it is a very powerful and useful product. Taste is incomparable to anything. When you touch this product, you will understand all its strength and power.

WHERE ELIXIR MEGRET IS MADE

The elixir was created in 2013 at the Megre Cedar House, a family-owned Siberian cedar oil factory. All production processes for processing the cone, making the Elixir and bottling take place here, in the Siberian taiga, far from the cities, in the village of Kandaurovo. The area is ecologically clean, the air here is completely different, and the house itself has amazing energy and aroma.

HOUSE FOR BONES

Our cone is kept in its own house, here in the taiga. It was built by analogy with the barns where the cone was stored centuries ago. Two-story house with natural ventilation, completely made of cedar - floor, walls and roof. It is important to store it high from the ground so that the cone is well ventilated, we store it on the second floor, in special bags and coarse weave .

IT'S ALL ABOUT THE PEDAR CONE

They say that no one does this anymore... but we have restored the ancient technology of collecting and storing cones, because we are convinced that the quality of the product depends on how much the original energy of the cedar was preserved.

We collect cones by hand and only those that the cedar has dropped itself. According to tradition, only such cones are ripe, and if knocked down, many are not yet ready, and the fight greatly reduces the healing properties of the oil.

After harvesting, the cones should "reach" for about three months. They reach with their warmth, therefore they cannot be peeled, and even more so boiled, scalded or roasted on fire, this kills all the benefits. For three months, the cone is still saturated with what is around, breathes, and it is better to store it in its native environment.

For the same reason, a bump cannot be transported to the city.

MEGRE

ELIXIR

100 %

Complex resinous coniferous smell, you can catch it simultaneously notes of pine needles, pine nuts and resins, and even woody shades.
Light oily consistency.

The taste is bitter-tart, slightly astringent and very rich, with bright pronounced coniferous aftertaste.
Very concentrated and lively.

COMPOUND:

100% pine cone oil.

PACKAGE:

A dark glass bottle with a dispenser in a gift cardboard box.

HOW TO USE:

Take a course of 1 time per day, 6 drops for 2 months.

The course of admission is 2 bottles.

Between courses, to maintain the effect obtained, we recommend taking Elixir Megre in cedar oil.

LONGEVITY

ELIXIR MEGRET 30 ml

It looks like a bump from under the press

ACTION:

Biologically active additive of intensive action, restores and heals the body during stress, physical, psychological, information loads and environmental impacts.

1. Complete detox.
2. Oxygen accelerator.
3. Concentrate of natural vitamins and fatty acids.
4. Clean energy.

CLINICALLY CONFIRMED:

1. Compensation for iron deficiency.
2. Get rid of liver parasites.
3. Improving the work of the cardiovascular system.
4. Has bactericidal and antimicrobial properties.

MEGRE

ELIXIR

COMPOUND

SAP →
Gum is a natural antiseptic

Tannins protect cells from inflammation

ETHERS →
Essential oils protect cells from the penetration of viruses and bacteria

CEDAR KERNEL OIL →
Contains a high concentration of omega-3 fatty acids

VITAMINS →
natural vitamins

MICROELEMENTS →
Natural trace elements

COMPOSITION OF THE BONE IN ONE BOTTLE

SAFETY

100% NATURAL COMPOSITION.

Elixir Megre and products based on it are made only from natural raw materials.

ENVIRONMENTALLY FRIENDLY PRODUCT.

The cone is collected in the Siberian taiga and processed without the use of chemicals. Manufactured and packaged away from cities and hazardous industries.

HIGH DIGESTABILITY.

Vitamins, trace elements and unsaturated fatty acids contained in the Elixir are absorbed by the body by almost 100%.

NO CONTRAINDICATIONS.

Elixir can be used from the age of 1 year. Suitable for both healthy people and those with chronic diseases.

An overdose cannot happen.

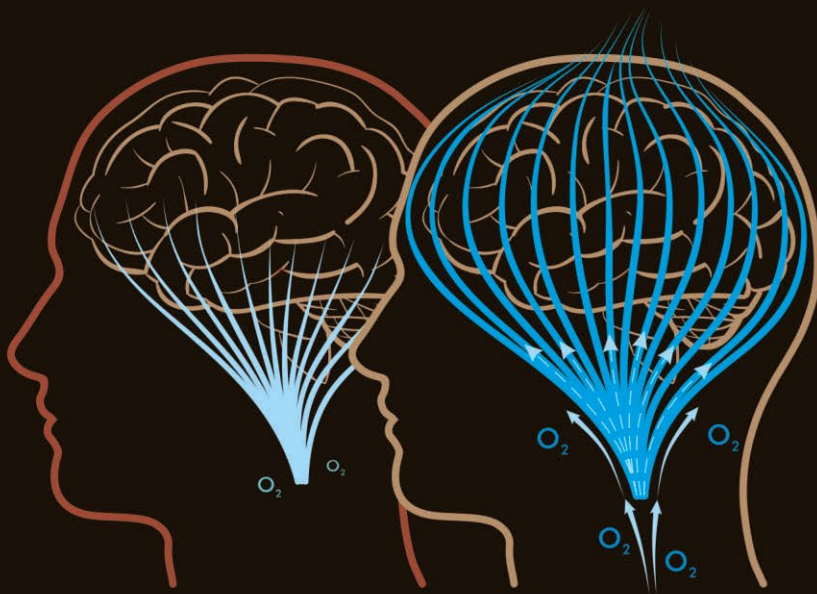

MEGRE

ELIXIR

ACTION

OXYGEN ACCELERATOR

Saturates the BRAIN with OXYGEN, INCREASING PERFORMANCE

Elixir Megre saturates blood cells with oxygen and enhances metabolic processes.

One of the main properties of the Elixir -
- saturate the body with iron, namely, it is responsible for the transfer of oxygen to all tissues and organs and, in general, for the body's ability to receive oxygen. At the level of the body, it is felt as if it was filled with fresh taiga energy.

2

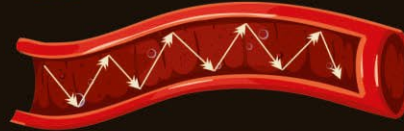

IMPROVES HEART FUNCTION

Elixir Megre in clinical studies and already in the experience of many people has shown good result for of cardio-vascular system.

It makes the vessels more elastic, normalizes the condition of the walls of the vessels, prevents the formation of blood clots, regulates blood pressure and blood cholesterol levels.

Makes vessels more elastic, normalizes the condition of the walls of blood vessels

Regulates blood pressure

Regulates content cholesterol in the blood

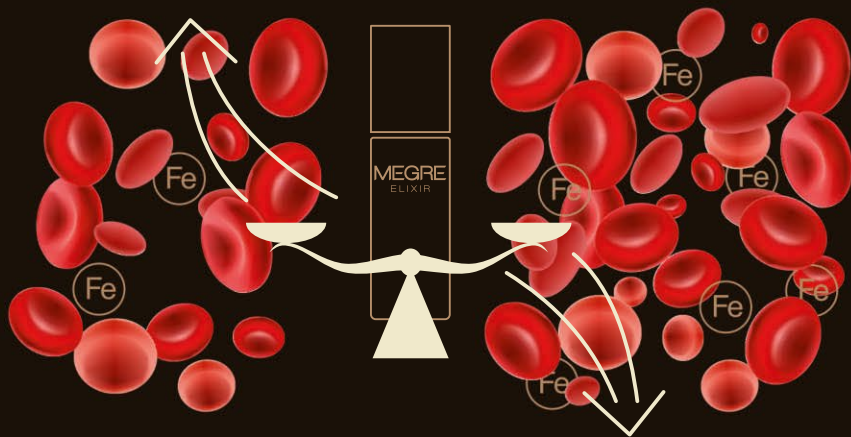

Prevents thrombus formation

COMPENSATION OF IRON DEFICIENCY

INCREASES IF NECESSARY

REDUCES WHEN REQUIRED

"Elixir of Cedar" **balances** the content of iron, erythrocytes and leukocytes in the blood: increases their number at initial low rates and decreases at initial high rates.

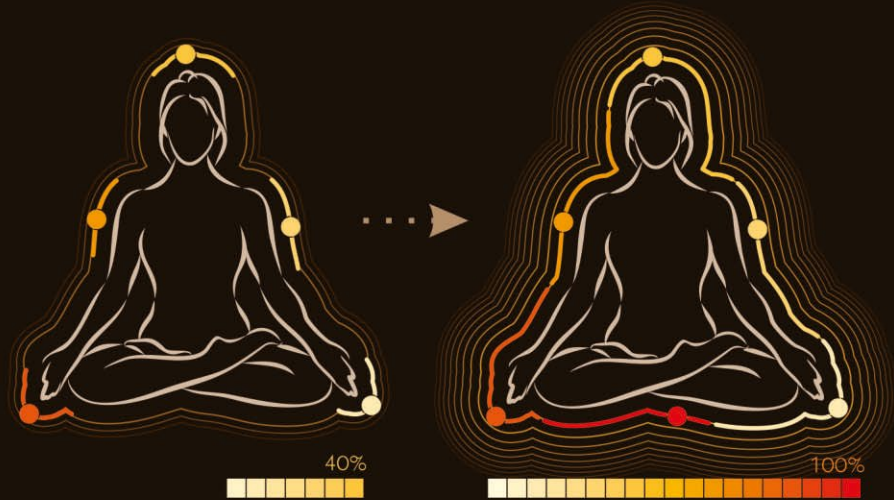

At the same time, the number of leukocytes, which directly affect the state of the body's defenses, increased in 69.5% of volunteers.

four

CLEAN ENERGY

Saturates pure taiga energy without chemicals, improves well-being and gives strength, helps to cope with nervous tension and insomnia.

Megre's elixir does not just increase the content of microelements in the blood, but acts as a wise natural tuner to a biologically correct rhythm.

RESTORES THE ENERGY OF THE BODY

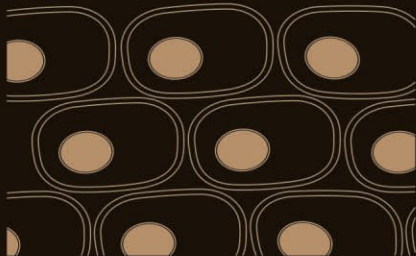

ACTION

ANTIBACTERIAL PROPERTIES

SAP

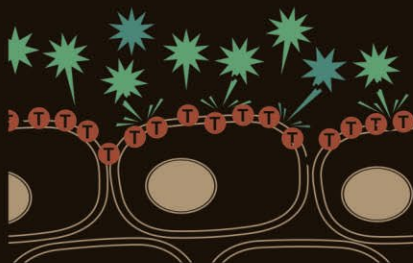

SOLID IS NATURAL
ANTISEPTIC

It acts at the level of every cell of the body, penetrates into it, increasing its regenerative properties and healing from the inside.

TANNINS

TANNINS PROTECT CELLS FROM
INFLAMMATION

Astringents from the petals of the cone and the nutshell have a strong anti-inflammatory and cleansing effect.

ETHERS

ESSENTIAL OILS PROTECT CELLS FROM
PENETRATION OF VIRUSES AND BACTERIA

They have antiviral and antifungal properties, have a calming effect on the nervous system.

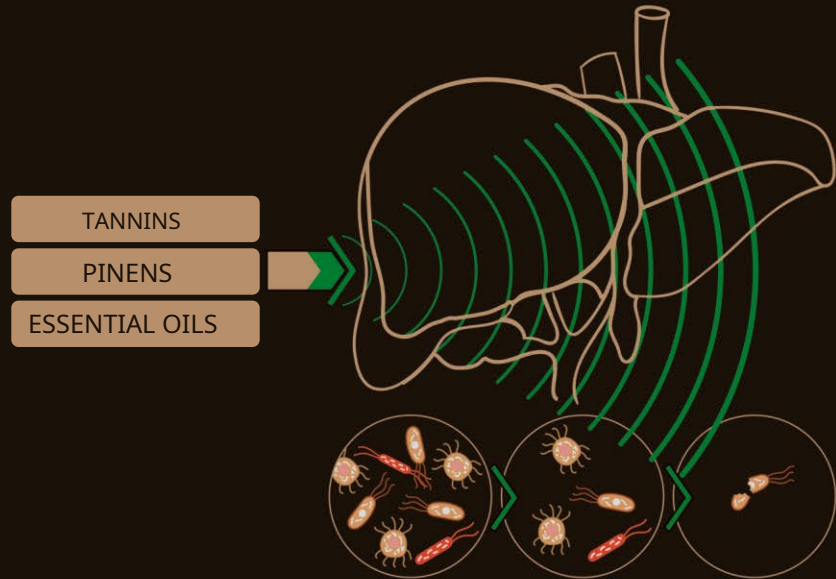

RELEASE OF LIVER PARASITES

"Elixir Megre" has pronounced bactericidal, antimicrobial, choleric and hepatoprotective properties. The use of cone oil has shown high efficiency in the complex treatment of people with chronic opisthorchiasis.

The effect of the action is explained by the content:

tannins(cause temporary paralysis of the muscles of the parasites and have a direct toxic effect on the eggs or larvae of the parasites)

ESSENTIAL OILS, PINENE have an antimicrobial effect, which allows you to maintain the normal microflora of the large intestine, preventing parasites from lingering in the body.

COMPLETE DETOX

RELEASES RADIONUCLIDES FROM BONE MARROW

Elixir Megre cleanses the body at all levels:

It enhances the work of excretory systems - kidneys, liver, gallbladder, cleanses the blood and evens out its composition, cleanses the body at the cellular level, including radionuclides that accumulate in the bone marrow from flights, mobile communications and the general increased level of radiation in the urban environment.

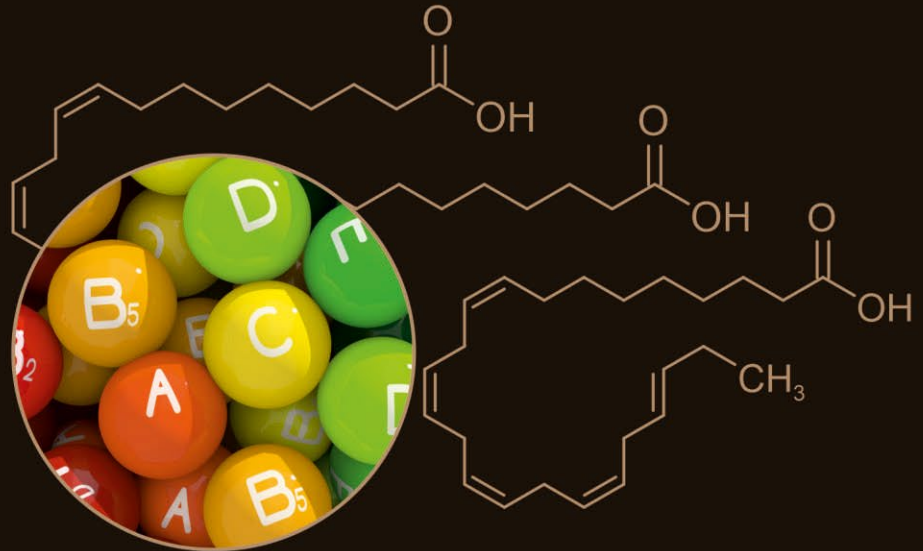

And besides, it works at the informational level and washes away the accumulated negative information on the subtle plane.

VITAMINS AND FATTY ACIDS CONCENTRATE

Elixir Megre has a rich microelement and vitamin composition with almost **one hundred percent digestibility**.

It is also rich in polyunsaturated fatty acids: oleic, linoleic, alpha- and gamma-linolenic acids support the functioning of the nervous system, have an anti-inflammatory effect and protect against atherosclerosis.

The elixir does not cause allergies, indigestion or other side effects and is easily absorbed.

NATURAL EASILY DIGESTIVE VITAMINS

MEGRE

ELIXIR

100 %

Format for people with an active lifestyle.

PACKAGE:

3 standards of 10 capsules in a cardboard box

Ingredients: 100% pine cone oil, gelatin capsule

Advantages:

1. Convenient to take on the road. Can be carried in hand luggage on the plane
2. Has no taste and smell
3. Easy to swallow
4. Saves all the benefits. Does not come into contact with air, therefore all ethers and trace elements 100% enter the body

LONGEVITY

ELIXIR MEGRET CAPSULES

HOW TO USE:

Take 1 capsule daily for 2 months.
Reception course - 2 packs (60 capsules).

Between courses, to maintain the effect obtained, we recommend taking Maigret's Elixir in cedar nut oil.

Indications for use are similar to Elixir Megre 30 ml, but Elixir in capsules is more suitable if:

- You do not like the strong taste of the Elixir and it is difficult to swallow it
- You often travel and take Elixir on flights to reduce radiation exposure
- You are more comfortable with the capsule form and dosage

CLINICAL TRIALS

The study of the composition of the MEGRE Elixir, as well as its clinical study, was carried out under the guidance of Doctor of Medical Sciences N. N. Svechnikova.

The studies were carried out on the basis of the Federal State Budgetary Scientific Institution "Research Institute of Clinical and experimental lymphology"

2017

Elixir Megre is clinically proven to solve the problem of iron deficiency, increase the level of iron and copper in the blood and maintain their optimal level.

The effect of the Elixir was evaluated on the basis of a chemical analysis of the blood of 23 subjects, among whom were both practically healthy, with baseline values within the normal range, and people with reduced hemoglobin and iron deficiency anemia. The control blood test showed a noticeable improvement in ALL problem points in ALL subjects! The most common moments that have been confidently corrected (by several units) are an increase in the level of hemoglobin, an increase in the number of red blood cells and white blood cells (which means an increase in the protective properties of the body) and iron levels in the blood. And for those who did not have obvious deviations, the indicators approached the ideal value (some increased, some decreased).

2019

It has been clinically proven that Megre's Elixir is a natural antiparasitic agent, in particular, it is effective in the treatment of opisthorchiasis.

According to the conclusion based on the results of clinical studies, the effectiveness with the use of Elixir Megre was 88.4%, and in therapy with biltricide 56.4%. Such properties of the Elixir are ensured by the high content of tannins (tannins) in the composition of the cedar cone, they cause paralysis of the muscles of parasites and refuse toxic effects on their larvae and eggs. Cedar essential oils, which are present in a high concentration in the Elixir, have an antimicrobial and antifungal effect, which allows you to normalize the intestinal microflora and does not allow parasites to linger in it.

NUTRITION EXPERIENCE

For me, Cedar Elixir is like the discovery of a new natural antibiotic, which I have been waiting for for many years. Having graduated from the institute back in 1994, I did not agree with antibiotic therapy, it was just that not a single antibiotic had any effect. Therefore, I began to study dietology and herbal medicine, they helped me find natural antibiotics that help with various problems, and the Elixir is something qualitatively new.

The elixir has a unique ability to restore leukocytes and restore bone marrow hematopoiesis. I think this is its unique effect.

It acts as an antiseptic, because in the process of pressing all the elements from the shell, from the petals of the cedar cone, get into the oil, and the entire immune system of the cedar cone gets into the oil extract. I consider this a unique natural antiseptic that copes with any inflammation without side effects.

I see that the Elixir affects antitumor immunity, strengthening the fight against these bad cells and the whole biological conglomerate, these are fungi, viruses, including papillomas and moles, protozoa, the same candida.

The elixir helps cleanse the liver, improve the functioning of the spleen and intestines.

Elena Garagulya, dietitian, member of the National Association of Dietitians and Nutritionists of Russia.
