SUMMARY

Art Director who turns a human insight into a campaign world people can step inside: integrated, 360 work across OOH, print, social, experiential, app and press. Nearly a decade on editorial fashion sets trained my eye; years in brand strategy at Sterling (Omnicom) and Jones Knowles Ritchie taught me to anchor every image in an idea. I take work from pencil thumbnail to finished frame myself, directing AI image and video tools the way a director runs a crew.
