

Social Media Guide to Posting for Veterinary Clinics

We have provided **nine sample messages** that your clinic can use when discussing Torigen on your website, customer emails, or social media channels. It is important to utilize these pre-approved messages instead of creating your own, as the USDA regulates the marketing materials of experimental treatment options. Incorporating these messages will ensure compliance while effectively promoting the benefits of Torigen to your audience.

Sample Messaging for Veterinary Clinics

Torigen Branded Statement:

Torigen Pharmaceuticals [page tag] is comprised of a team of cancer researchers and veterinarians committed to making a difference. Fighting cancer's many mutations requires a unique, individualized approach. By harnessing the power of pets' immune systems, we create a whole-cell vaccine representing a diverse sample of cancerous antigens for individualized immunotherapy treatments. Our mission is to improve the lives of animals by harnessing the power of their immune systems to change the way cancer is treated. [hashtag]

Unbranded Statement:

At [clinic name], we are staying on the cutting edge of autologous cancer immunotherapy. By utilizing the power of pets' immune systems, *autologous immunotherapies* can be created, representing a diverse sample of cancerous antigens for individualized treatments. Our mission is to reach more patients and provide hope for their families—by changing the way cancer is treated. [hashtag]
