PROFESSIONAL PROFILE

Data Engineering and Artificial Intelligence student with a strong interest in cybersecurity. Actively training in threat analysis, SOC operations, and SIEM tooling. Solid foundation in data analysis, SQL, Power BI dashboards, and AWS cloud fundamentals. Technical profile focused on continuous learning, with hands-on experience in web development, Agile project management, and Microsoft-certified productivity tools.

WORK EXPERIENCE

Web Designer & SaaS Technical Support

2023 – Present

Cell Phone Shop Puebla

- Technical support for SaaS platform (Wix): configuration, maintenance, and incident resolution.
- Design and development of websites with a focus on UX/UI and user experience.
- Prototyping and interface mockups using vibe coding and visual design tools.
- Digital content management and product catalog integration for e-commerce platforms.
- General technical support for the business's technological infrastructure.
