

Bel Tee-Graziose

Product Designer

Seattle, WA | (201) 705-3554 | belteegraziose@gmail.com
[Portfolio](#) | [LinkedIn](#)

Product Designer with an MS in Human-Centered Design & Engineering and 3 years of experience across health, education, and community projects. Connects user research, accessible interaction design, and developer handoff.

Experience

JUNE 2025 - PRESENT

Halibut Flats Research & Development - Product Designer

- Lead responsive product and visual design for LungPATHs, translating Indigenous elder and community-partner input into a culturally grounded lung-health website.
- Co-facilitated 2 focus groups with 14 participants, informing priorities for trust, screening clarity, tobacco education, and access to care.
- Created desktop and mobile prototypes, reusable components, and developer specifications covering responsive behavior and acceptance criteria.

NOV 2021 - MAR 2022

3:5 Creative[s] - *Graphic Design Intern*

- Designed brand-aligned client assets and production-ready MailChimp layouts across concurrent agency projects.

JUN - AUG 2019

Corra - *Graphic Design Intern*

- Expanded and standardized internal UX template libraries with reusable components.

Selected Projects

OCT 2024 - JUN 2025

DubsBooks, University Book Store - *Product Designer & Capstone Lead*

- Led a five-person capstone team, delivering a high-fidelity course-material purchasing prototype and design system.
- Conducted 17 student intercept interviews and led 3 usability tests, informing course details, price comparison, and marketplace listings.
- Redesigned the future-state service blueprint, modeling 33% fewer frontstage touchpoints and 20% fewer backstage maintenance steps.

JUN 2024 - AUG 2024

Vanishing Spaces, Invisible Histories - *Volunteer UX Designer / Information Architecture Lead*

- Led UX and visual direction for a seven-week LGBTQ digital-archive pilot, integrating story-first navigation, Matterport tours, and ArcGIS maps.
- Delivered the working prototype; the public pilot launched in January 2026 with 2 explorable spaces.

Education

SEPT 2023 - JUN 2025

University of Washington, Seattle, WA - *MS in Human-Centered Design & Engineering*

SEPT 2017 - JUN 2021

School of the Art Institute of Chicago, Chicago, IL - *BFA in Visual Communication & Arts and Technology*
