## About Typografische

Typografische is an independent type foundry based in Istanbul, founded by Fatih Hardal in 2020. We design contemporary typefaces that merge graphic and type design, offering both functional and expressive typographic solutions. Our philosophy is built on precision, clarity, and innovation.

Each typeface we create reflects meticulous craftsmanship and a deep understanding of both historical and contemporary letterforms. We believe that typography is more than just letters; it is a tool that shapes visual culture, communication, and identity.

Our retail catalog features a diverse range of typefaces, from text-optimized fonts for digital and print applications to striking

display styles. All our fonts support extensive Latin character sets and are designed to meet the needs of designers, brands, and institutions worldwide.

In addition to collaborating with leading global companies such as Adidas, Apple, Adobe, Grammy and Nike, we have contributed to city branding projects. Our custom type design services span corporate identity systems, editorial design, and digital platforms, ensuring that typography remains an integral part of brand expression. Typografische continues to push the boundaries of type design, delivering high-quality and innovative fonts for modern communication. Explore our type library and trial versions in the 'Trials' section or contact us to discuss custom collaborations tailored to your needs
