OVERVIEW

Kenya green (French) beans are one of the country's classic high-value horticultural exports — pods are hand-picked, hand-graded, and air-freighted out within 24–48 hours of harvest to reach EU supermarket shelves while still genuinely fresh. Extra-fine grading (under 6mm pod diameter) commands the strongest pricing.

Pricing is available on request and confirmed against current availability and order quantity. Request a quote for this product at riftsoil.com.
