

AI, data, and cyber,
engineered for the mission.

CAPABILITY STATEMENT

Getting mission data into production.

An SBA-certified service-disabled veteran-owned small business that builds data platforms, production AI, and secure data systems for federal missions, on the platforms agencies already run.

CORE COMPETENCIES

Data & AI Engineering

Data platforms and migration · Pipelines · ML/AI models · Pilot to production

Mission Data Applications

Legacy integration · Data APIs and services · Analytics apps and dashboards

Data Security & Governance

Access control · Zero-trust data architecture · Lineage and audit readiness

WHY FORGED

SDVOSB set-aside eligible

SBA-certified SDVOSB and VOSB

Direct accountability

You work directly with the founder

Implementation-focused

Measured by what reaches production

Platform-agnostic

Built for the environment your mission already runs
