About me

Driven by a strong interest in UX/UI design and digitalization, I create solutions that simplify complex digital systems. By combining knowledge of human psychology and perception with technical skills in Figma, HTML, and CSS, I ensure that digital systems and processes are both user-friendly and functional.

Skellefteå Kommun | Business developer, UX

Jun 2026 · Aug 2026

Evaluated and developed the schedule distribution process for short-term care facilities in Skellefteå.

Estity | Bachelor's Thesis 15 ECTS

Mar 2026 · Jun 2026

Redesigned and streamlined the onboarding experience for Estity, a platform targeting Swedish property owners, optimizing user flow and reducing drop-off rates

Interact | Project 7.5 ECTS

Nov 2025 · Jan 2026

Project with Interact, evaluating and improving the usability of an algorithmic power grid planning system

Region Västerbotten | Project 7.5 ECTS

Sep 2025 · Nov 2026

I designed a solution to simplify access to historical patient data for healthcare professionals by developing an integrated module for the new Cosmic EHR system.

Jost AB | Project 7.5 ECTS

Apr 2024 · Jun 2024

Respite Care Home | Support staff

2021 · 2023

Professional education
