

Luneta Chair

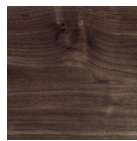

ABOUT

The Luneta Chair carries the same lightness and simplicity as its companion stool, shaped with curved legs and a softened timber profile. Though modest in stature, its generously rounded seat offers surprising comfort, making it well-suited to smaller spaces. The low backrest provides gentle support, continuing the collection's thoughtful approach to form and function. Made with traditional joinery in solid timber, the Luneta Chair brings quiet character and a sense of ease to any setting.
