BM100

The BM100 is engineered to excel in environments where demand for quality coffee is constant and substantial. With a capacity to serve over 100 cups per day, this machine combines high-performance functionality with innovative technology to deliver effortless perfection in every cup.

MACHINE FEATURES

ENHANCED CAPACITY AND SPEED

The BM100 features a large 6-liter water tank to ensure uninterrupted service and a 10-inch color touchscreen display that offers over 20 programmable beverage options. You can also opt to have the machine fed from your mains supply.

CUSTOMIZABLE BEVERAGE CREATION

Users can easily customize drink options and create personal menu choices, tailoring each drink to their preferences.

HIGH-QUALITY BREWING

Equipped with dual thermoblock technology and an innovative Steam Tech Pro milk foam system, the BM100 produces consistently excellent beverages with perfect temperature and texture.

SIMULTANEOUS COFFEE AND MILK DISPENSING

This feature allows for a faster service speed, making it ideal for busy settings without compromising the quality of the coffee or milk foam.

BEST FOR INDUSTRIES IN

OFFICES

Enhance the productivity and satisfaction of employees with a dependable, quick coffee service.

EDUCATIONAL AND HEALTHCARE FACILITIES

Serve a large number of students, staff, or visitors efficiently with a variety of coffee options.

WHY CHOOSE THIS MACHINE?

USER-FRIENDLY INTERFACE

The intuitive 10-inch touchscreen makes it easy for users to select and customize their beverages, offering a user-friendly experience that matches the machine's sophisticated capabilities.

DURABLE AND EASY TO MAINTAIN

Designed for durability and easy maintenance, the BM100 ensures long-lasting performance with minimal downtime.

VERSATILE INSTALLATION OPTIONS

With options for built-in water filters, mains water connection, and mains drainage, the BM100 can be customized to fit the specific needs of any large-scale operation.

MACHINE DIMENSIONS

559mm x 391mm x 628mm
