

Product – UX Designer

AGOSTINA CHIAPINO

Buenos Aires, Argentina · chiapinodesign@gmail.com · +54 9 11 3006-9591 · [Linkedin](#) · [Portfolio](#)

PROFILE

Recently graduated as a Product Designer from Universidad de Palermo, with a background in physical-digital design and freelance experience in UX/UI and Visual Design. I work with an AI-First approach, integrating AI tools across every stage of the process — research, ideation, prototyping, and iteration — to accelerate learning and broaden my ability to explore solutions with rigor and aesthetic sensitivity.

Looking to make the leap into the tech industry, joining product teams and technology companies.

EXPERIENCE

UI Designer | Festejá *Current*

- Designed a reusable Figma component system for Festejá's interactive digital invitation platform ([Festeja.com.ar](#)), applying responsive principles to deliver a consistent guest experience across devices — reducing the time needed to launch new invitation designs.

Freelance Community Manager and Visual Designer | Moii Agency *2025*

- Developed cohesive visual systems (color, typography, layout) for multiple agency clients, delivering on-brand assets across formats within tight briefs and deadlines.
-
