EXPERIENCE

Data Analytics Intern

Jan 2026 - Present

The Ascott Limited

- Performed data analysis and validation on large datasets using SQL and Excel to ensure accurate business reporting.
- Built and maintained dashboards, and led the end-to-end migration of 2 dashboards serving 300+ users.
- Conducted customer satisfaction impact analysis using Python (Pandas, Matplotlib, Seaborn, NumPy), delivering visualizations and insights that directly informed senior management decisions for the next financial year.
- Investigated and resolved 25+ data discrepancies through root cause analysis, partnering with cross-functional teams on UAT and operational support to improve data integrity.

PMO Intern

May 2025 - Aug 2025

Changi Airport Group

- Facilitated Agile ceremonies across multiple squads and gathered product requirements in Jira and Confluence.
- Built an Agile Success Metrics tracking system end-to-end using Microsoft Forms, Power Automate, and Power BI, delivering 3 dashboards to visualize squad performance.
- Led the Terminal X Vendor Showcase (5+ vendors, event flow, on-site execution) and Host Training sessions (20+ Hosts, 2 sessions).
- Designed and wrote the official Host Guide used for showcase tours, including CEO and external partner visits.
- Conducted user research via concept testing and passenger interviews with the EUXUI team, producing the report used for post-UT Shareback.

Business Analyst Intern

Dec 2024 - Jan 2025

Global Enterprise Mobility (GEM) Corporation, Hanoi, Vietnam

- Designed Figma wireframes and process flow diagrams to translate business requirements into clear visual specifications for development teams.
- Participated in the full software development lifecycle (SDLC) following Agile practices.
- Gathered and documented business requirements, authored user stories, and managed the product backlog to prioritize features and align stakeholder expectations.

Risk Analyst Intern converted to Contract

Jul 2022 - Jun 2023

GIC Pte Ltd

- Built a commodities performance dashboard end-to-end for S&P GSCI indices. Including data extraction, validation, chart design, and underlying logic, used by the team's Vice President.
- Developed a portfolio weight calculator using Excel VBA that computes estimated returns and risk levels based on user-defined asset weightings.
- Conducted market research and analysis using Bloomberg Terminal, supporting quarterly risk reporting.
- Performed UAT on performance system enhancements and supported the broader reporting process.
