NOTES

Estimate only. This is not a quote, a guarantee of proceeds, or legal, tax, or financial advice. Actual figures depend on the sale price, payoff statements, contract terms, closing date, and the settlement statement prepared by the closing attorney. Other expenses not listed here may apply. Prorations and fees vary by property and transaction. Amplifier's 1.5% listing-side compensation is paid at closing and does not include buyer-broker compensation or other seller closing expenses. Totals calculate automatically in Adobe Acrobat Reader. Some browsers and preview apps don't run form calculations; if totals stay blank, add the lines by hand.
