Hey there! I'm a graphic designer with 3 years of experience, mostly working on corporate design and collaborating with awesome teams. I'm all about creating cool illustrations, crafting brands, and bringing motion graphics to life. I'm super comfortable with Adobe Creative Suite and Figma, they're basically my second home. Lately, I've been diving deeper into UI/UX and website design because I'm really excited about making designs more interactive and finding ways to incorporate AI into my work.

When I'm not designing, you'll probably find me at the gym lifting weights, sculpting something fun, or binge watching TV shows for creative inspiration. I'm always up for new challenges and looking for ways to push my skills further!
