My name is Matteo, I am a fresh graduate and musician. I am organized, ironic and proactive.

Hard skills

Figma
Framer
WordPress
HTML, CSS, C# basics
User research
Usability testing
Heuristic analysis
Miro
Canva
Microsoft Office

Soft skills

Communication
Discipline
Determination
Curiosity
Public speaking

Languages

Italian	Native
English	C1
French	Basic level

Work experience

UX/UI Designer (Intern) November 2025 - February 2026

[Akkodis](#)

I've redesigned the project management webapp used in Akkodis' Milan office to make PMs' jobs easier. Not only through a cleaner and more visually consistent interface, but also by reimagining user flows so that PMs can save time from automatable tasks and focus on business-relevant ones.

Market Research (Intern) April 2023 - July 2023

[Spice Research](#)

I've carried out my bachelor's curricular internship in a market research micro-firm, where I was primarily involved in qualitative research. I've gained a better understanding of semi-structured interviews and focus groups, but I also had the chance to dive into the world of questionnaires.

I also refined my knowledge of the Office Suite (e.g., by learning how to create and manage pivot tables).

Education

[Communication Theory and Technology](#) 2023 - 2026

University of Milano-Bicocca, Milan, Italy

My Master's degree is interdepartmental between psychology and computer science. Strengthening my psychological background, I've learnt some UX/UI concepts from courses such as interaction design and cognitive ergonomics, with some hints on virtual reality and information law.

Erasmus (Engineering Department) September 2024 - February 2025

[Ghent University, Ghent, Belgium](#)

I've studied abroad in Belgium, in the Engineering and Architecture Department of Ghent University. There, I had the chance to focus on AI, data visualization, and marketing communication.

[Psychosocial Sciences of Communication](#) 2020 - 2023

University of Milano-Bicocca, Milan, Italy

During my Bachelor's degree I had the chance to learn theories, methods, and practices of psychology and communication, with some hints on (psycho)linguistics and marketing.
