

## PRECISION, SPEED, *and* EXPERTISE.

PRGRIN serves owners and developers who want guidance and efficiency across the build process.

We know that finding knowledgeable people with follow-up, or who know when and how to get a job done with changing variables is a unique challenge.

Our aim is to demystify the build process and guide clients through each phase thoughtfully and efficiently.

# OUR CAPABILITIES

## PRE-CONSTRUCTION

At our company, we recognize the uniqueness of each project and offer tailored preconstruction and design integration services. By collaborating closely with you, we develop accurate timelines, efficient schedules, and a highly skilled team, ensuring that we have the most precise information on costs, scheduling, and constructability to facilitate a successful project execution.

## ARCHITECTURAL CONSULTING

Our architectural consulting services offer expert guidance and innovative solutions tailored to your project's unique requirements. By leveraging our extensive experience and industry knowledge, we collaborate closely with you to develop functional, aesthetically pleasing, and sustainable designs that optimize space utilization and enhance the overall user experience.

## GENERAL CONSTRUCTION

We provide a wide range of customized construction services, including event venues, hotels, multi-family residential, facility maintenance and repair. Our innovative solutions also extend to employee moves and relocations, ensuring a seamless transition for your business.

## PROJECT & CONSTRUCTION MANAGEMENT

As your dedicated full-service construction management team, we provide comprehensive support from the project's inception to its successful completion. We serve as your single point of contact, efficiently resolving any issues that may arise and keeping you well-informed with regular progress updates and all relevant information throughout the project's lifecycle.
