ABOUT

As a creative with over 10 years of experience, I bring innovative yet functional solutions to every client project and team I lead. I'm constantly exploring emerging technologies and delivering high quality user-focused experiences.

EXPERIENCE

Y Media Labs

Senior Product Designer | Atlanta, GA | 2021 — Present

- Created cutting-edge digital experiences for top brands
- Led the design efforts for YML's second-largest project, valued between \$15M and \$20M
- Worked with a diverse set of clients, from international tech giants, to household names in healthcare
- Strengthened client relationships through clearly communicating and problem solving during tense product decision scenarios
- Regularly delivered well above client expectations, leading to project extensions of more than \$600K
- Directed internal and client design teams, driving projects to innovative outcomes
- Crafted impactful products used by tens of millions of people

Digital Products of Accenture

Senior Product Designer | Houston, TX | 2019 — 2021

- Led client engagements, and directed 2-4 other designers within those projects
- Defined team objectives, goals, and initiatives to help bolster collaboration and grow our design team
- Provided world-class design consulting to Fortune 500 clients
- Organized and spoke at design community events in Houston

Product Designer | Houston, TX | 2017 — 2019

- Founded a new design branch of Digital Products in Houston
- Mentored, sourced design talent, and provided team leadership
- Helped scale the design team 5x during this time

Intrepid Pursuits

Product Designer | Boston, MA | 2015 — 2017

- Built client relationships and gained trust to lead projects as an individual contributor and primary decision maker
- Guided clients to modernize their user experiences by pushing the boundaries of their user interfaces

Junior Product Designer | Boston, MA | 2015

- Collaborated with sizable teams of designers and developers
- Pushed digital products forward through mindful critique
- Created products ranging from web applications, to Android and iOS apps
