

September with STEMsters

Dear STEMsters Community,

As September comes to a close, chapters across the country continue to inspire young minds and make a difference in their communities. In this issue, you will find an Instagram feature and a testimonial. We are honored and grateful to everyone who made this month possible!

GRAMS OF THE MONTH

Taking AP Biology? Take a look at this video to see what the rest of your semester looks like!

Need a refresher on Geometry? Take a quick look at this typography to solve a simple perimeter problem!

We want to give a shoutout to STEM Her Way, a student-led non-profit organization dedicated to empowering girls to explore opportunities in STEM.

TESTIMONIAL

"The students really look forward to each challenge, and they especially enjoyed spending time with the High School kids from Allentown Central Catholic. The lessons were well done, straightforward, and used simple materials that we already had in the classroom."

- Rosimar Bauer, Allentown Central Catholic High School (Pennsylvania)

DO YOU KNOW HOW THE CUP PHONE WORKS?

When you speak into one of the cups on the phone line, your voice causes physical vibrations to travel along the string. Once these vibrations reach to the other cup they are converted back into audio, allowing the other person to hear what you said.

START A CHAPTER AT YOUR SCHOOL

It takes just a few minutes to apply, and we'll support you through every step, just like we have for every chapter. Share this opportunity with friends who are ready to make an impact this fall.

THANK YOU FOR BEING A PART OF THIS

Whether you lead a chapter, lend a hand at events, or simply cheer us on, thank you. None of this happens without you, and we don't take that for granted. We get to do this work because people like you keep showing up, again and again, and that means everything to us.

We'll see you again soon. Until then, stay curious!
