Architectural Glass

Mesh Glass

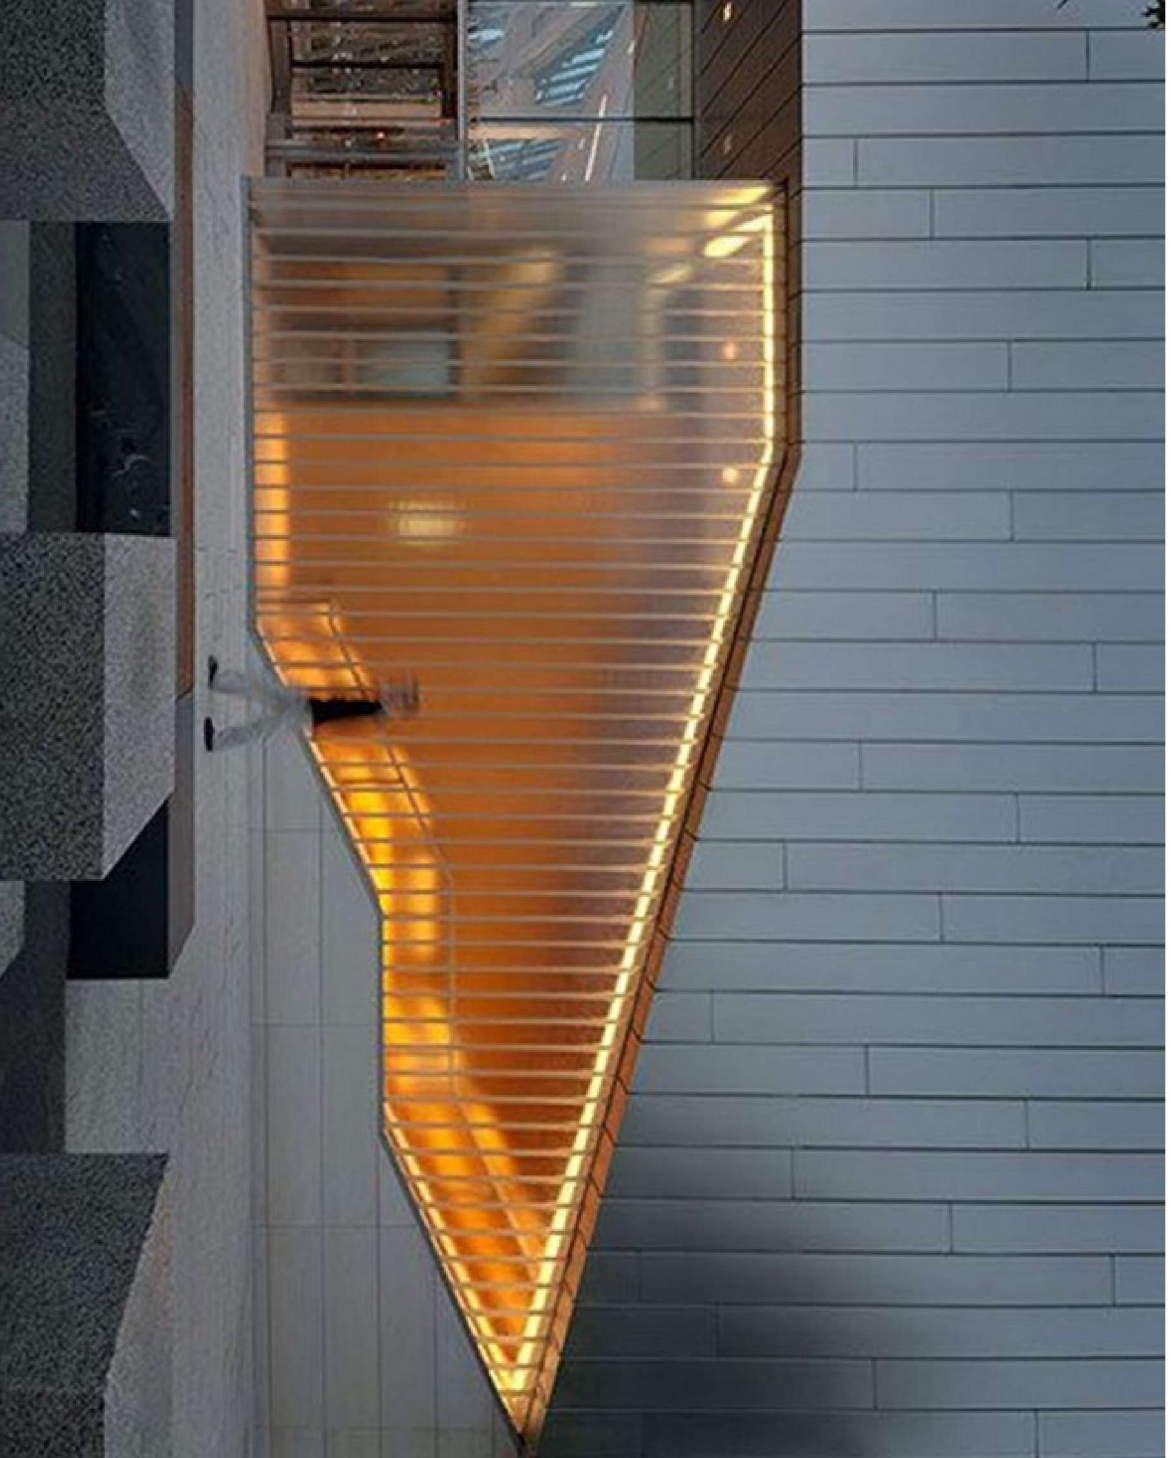

Elevate your space with a touch of sophistication as this exquisite glass with mesh inside transforms ordinary surfaces into works of tactile artistry.

Fabric Glass

Introducing a captivating fusion of glass and fabric, where artistic craftsmanship meets functionality.

Dive into a world of vibrant possibilities with our colorful glass collection, where imagination knows no bounds. Explore an endless spectrum of hues and shades, each pane a canvas of captivating color.

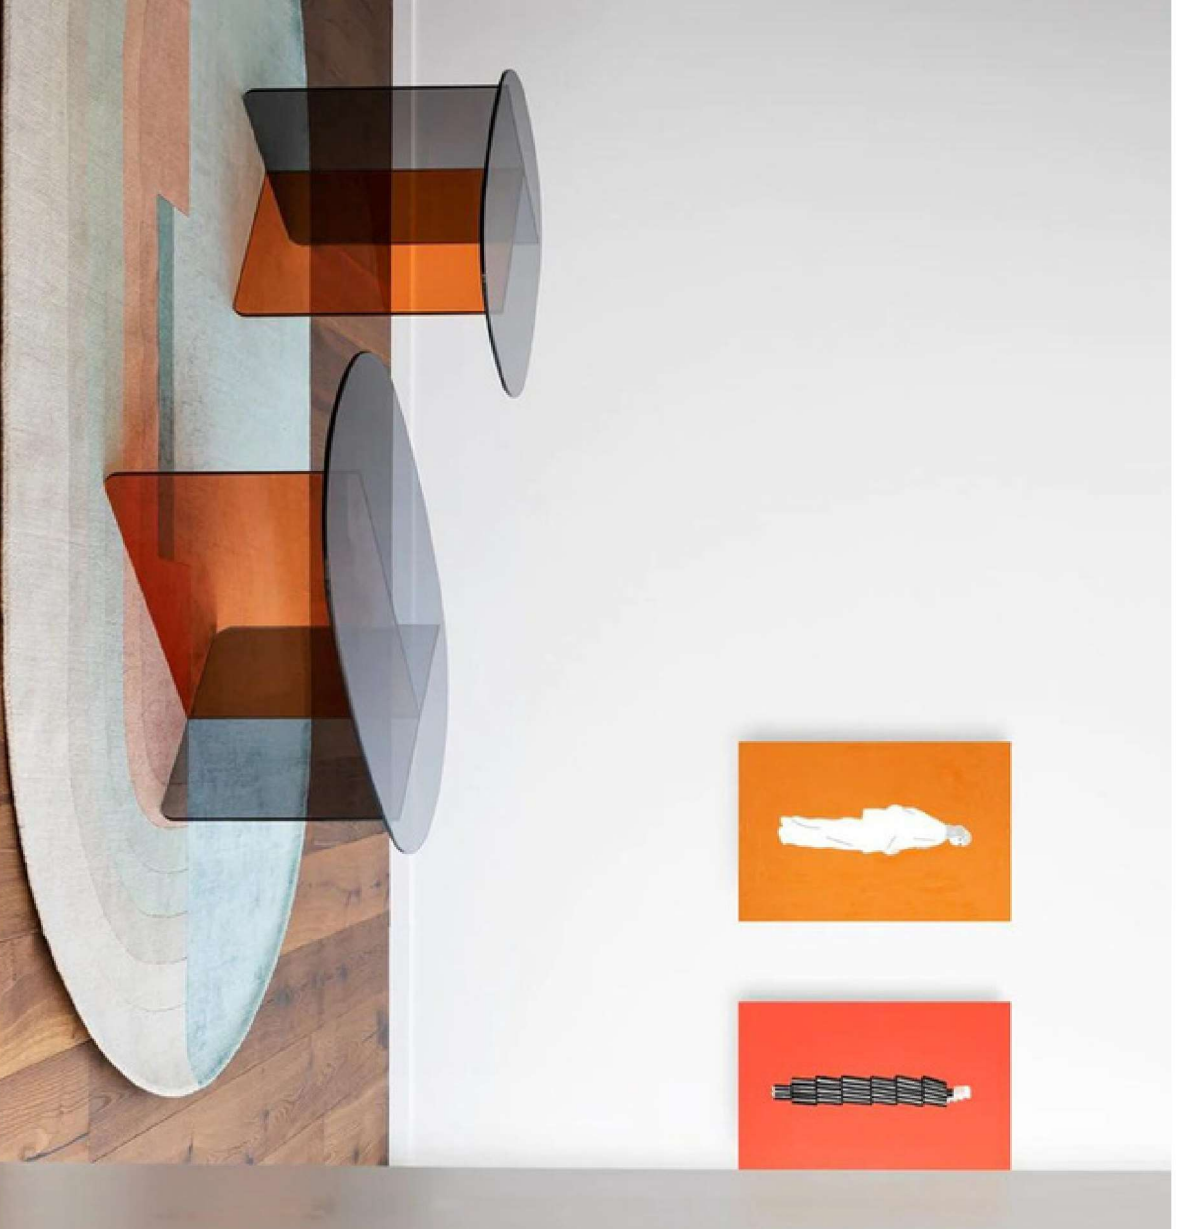

Colored Glass

Elevate your design with the versatility of laminated glass.

Aviva1Design offers a curated collection of laminated glass. Glass is a unique material from a technical and functional point of view. Resistance to wear and tear, easy maintenance are only some of the reasons of its popularity in interior design. First choose the space you would like to elevate and then specify color, pattern, finish and overlayer.

- 1)** Glass Panel (Acid, Textured,
- 2)** Regular) Colored EVA or PVB
- 3)** Glass Panel

Colored Glass

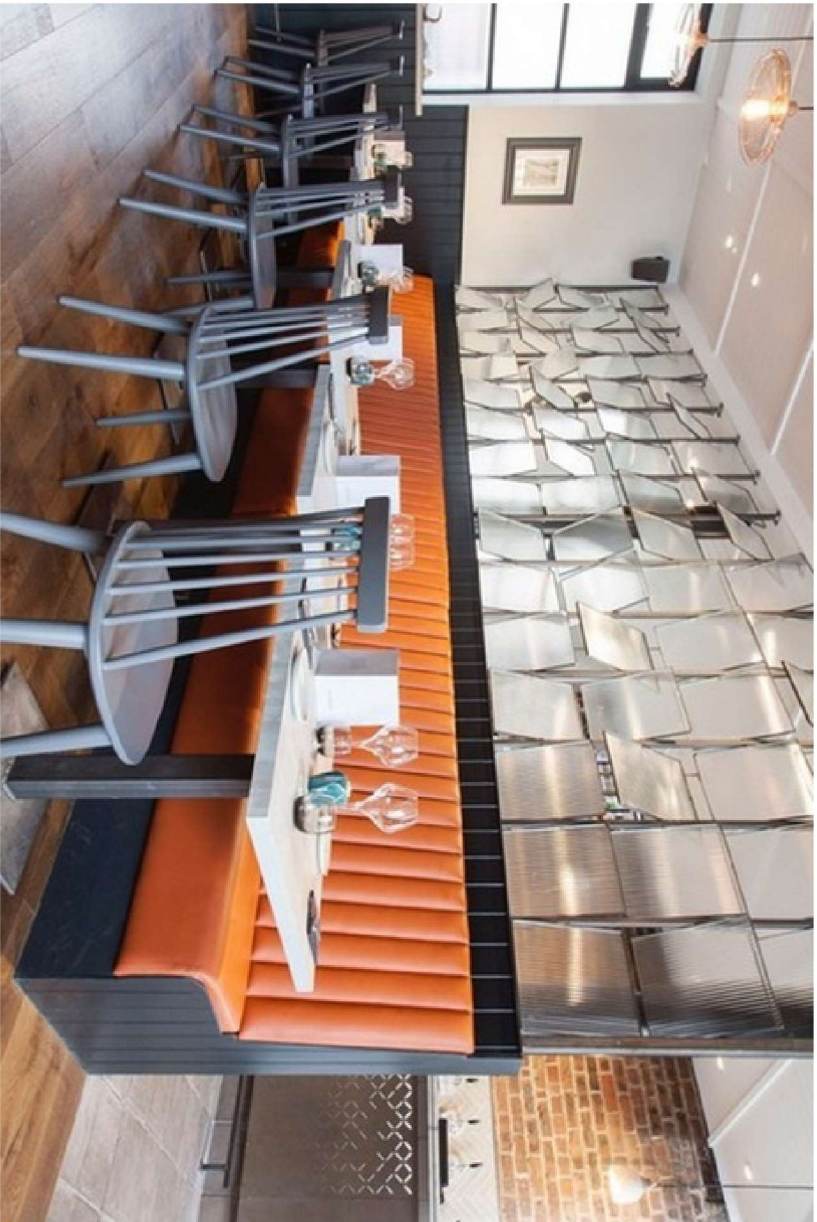

Colored glass turns everyday pieces into remarkable works of functional art. These pieces elevate interior design with a touch of boldness and vibrancy.

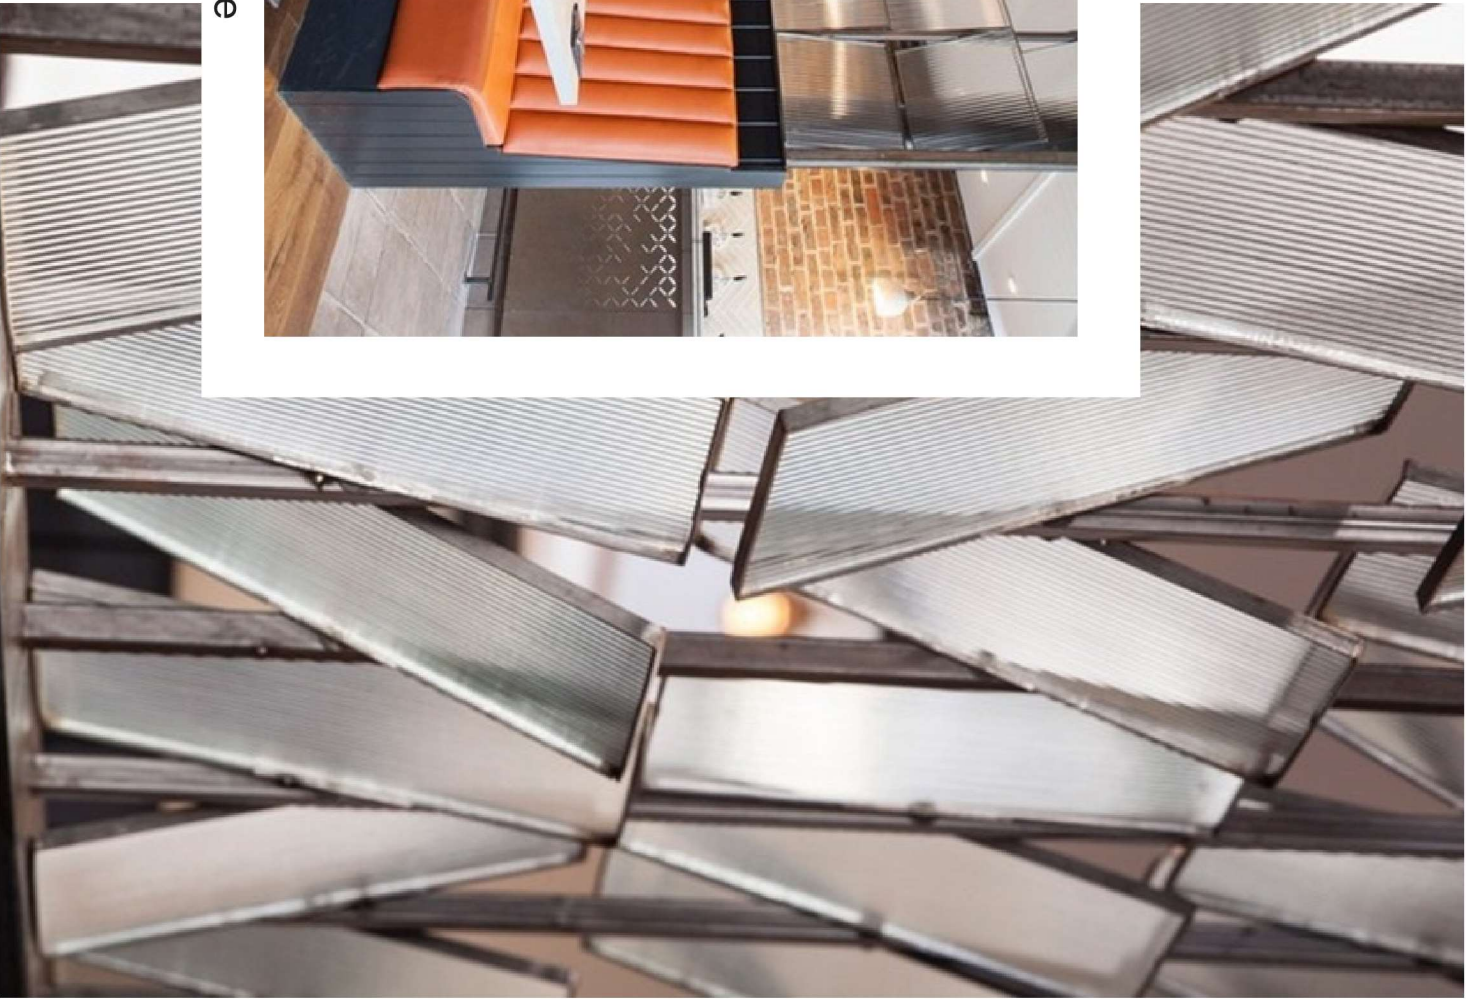

Textured Glass

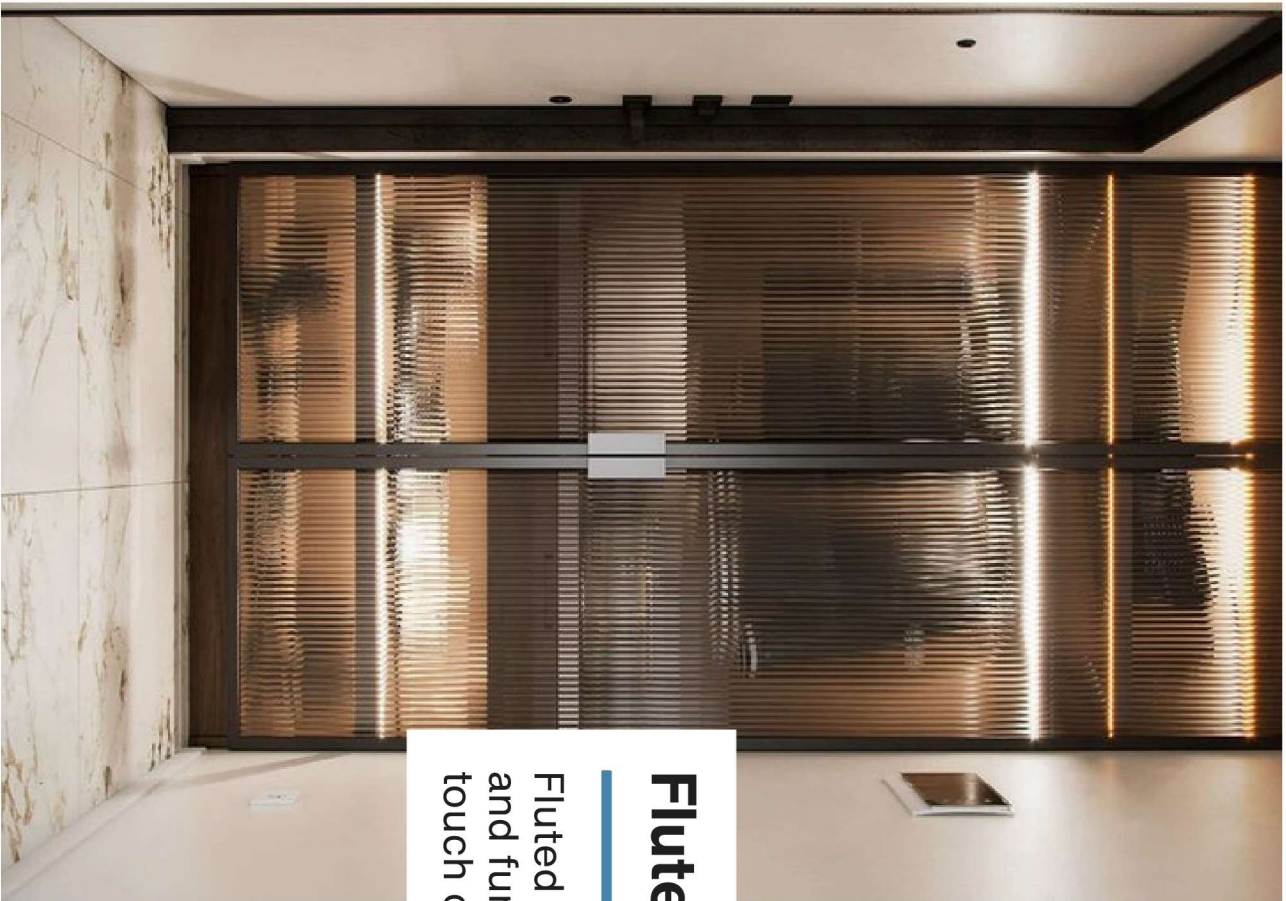

Transcend conventional design: immerse yourself in a rich palette of textured glass, in every shade imaginable.

Reeded Glass | Retro Style

Fluted Glass

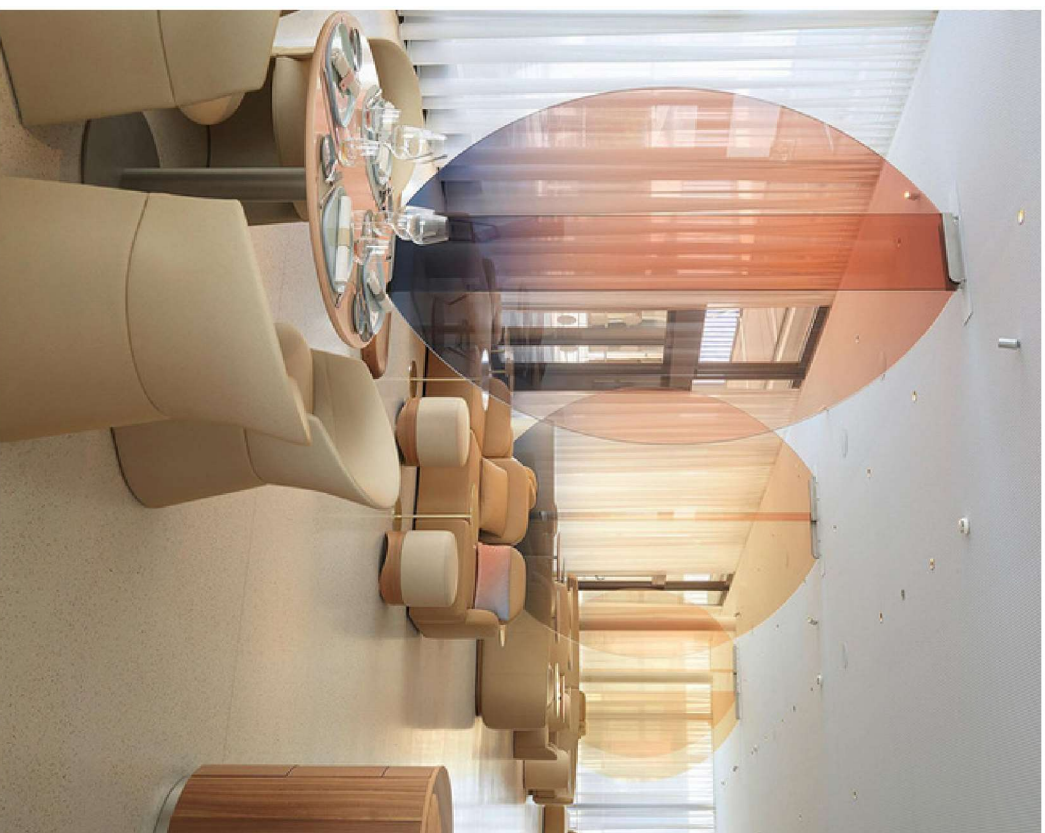

Fluted glass offers a perfect blend of style and functionality. The textured glass adds a touch of elegance while ensuring privacy.

**It is all about
the imagination**

Digital Printing

We can print any design from high resolution signage to graphic patterns. Glass and ink create timeless patterns.

Gradient Glass

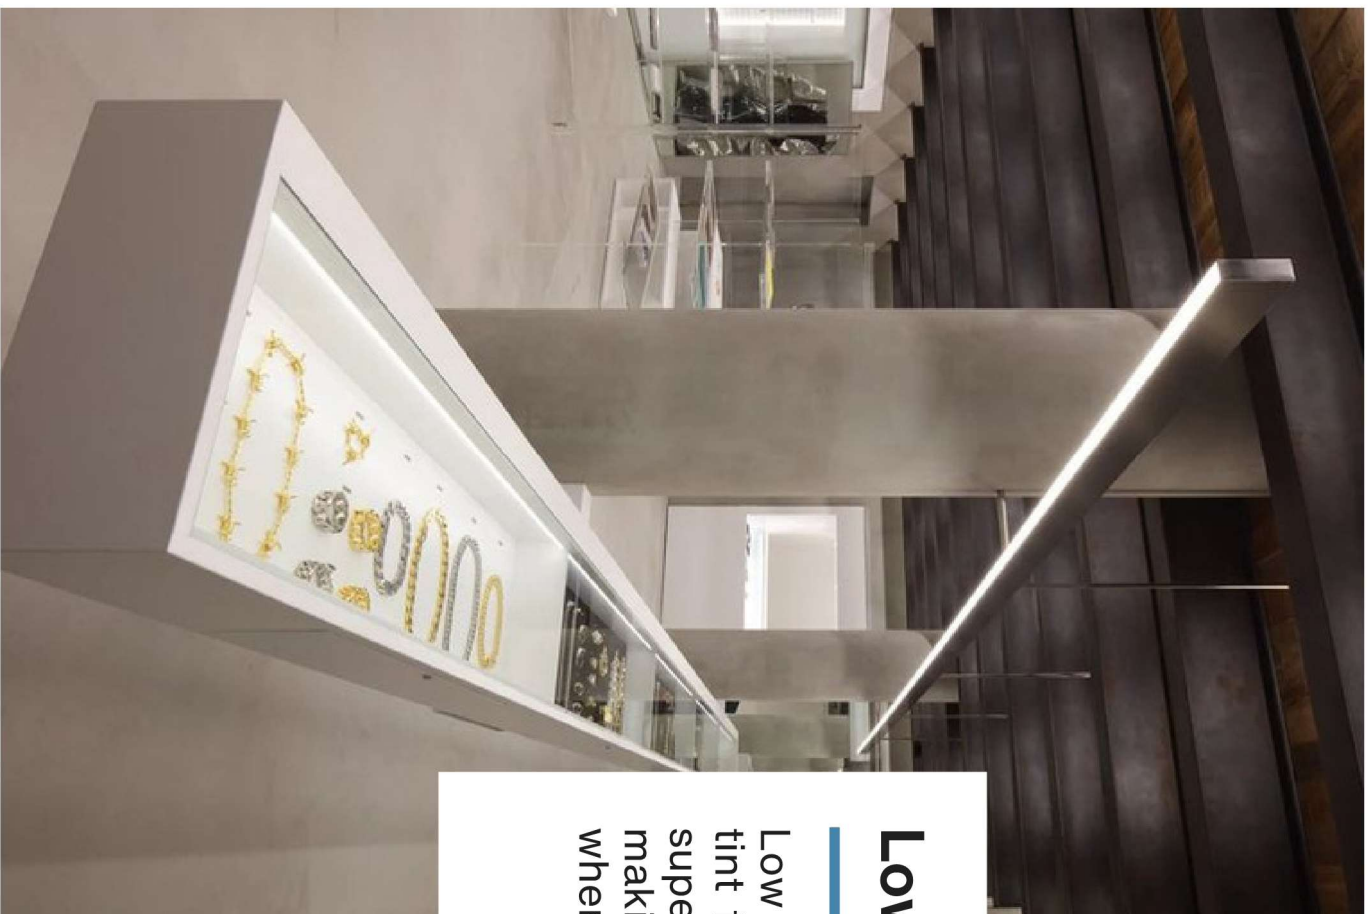

Gradient glass showcases a harmonious blend of colors, transitioning smoothly from one hue to another. This innovative glass infuses spaces with a captivating visual depth, merging elegance with a contemporary aesthetic.

A Myriad of Pantone Colors

Back Painted

Using ceramic glass paint, we bring your desired hues to life. Embrace safety with tempered glass, as its surface boasts a remarkable strength approximately 10 times greater than that of standard glass.

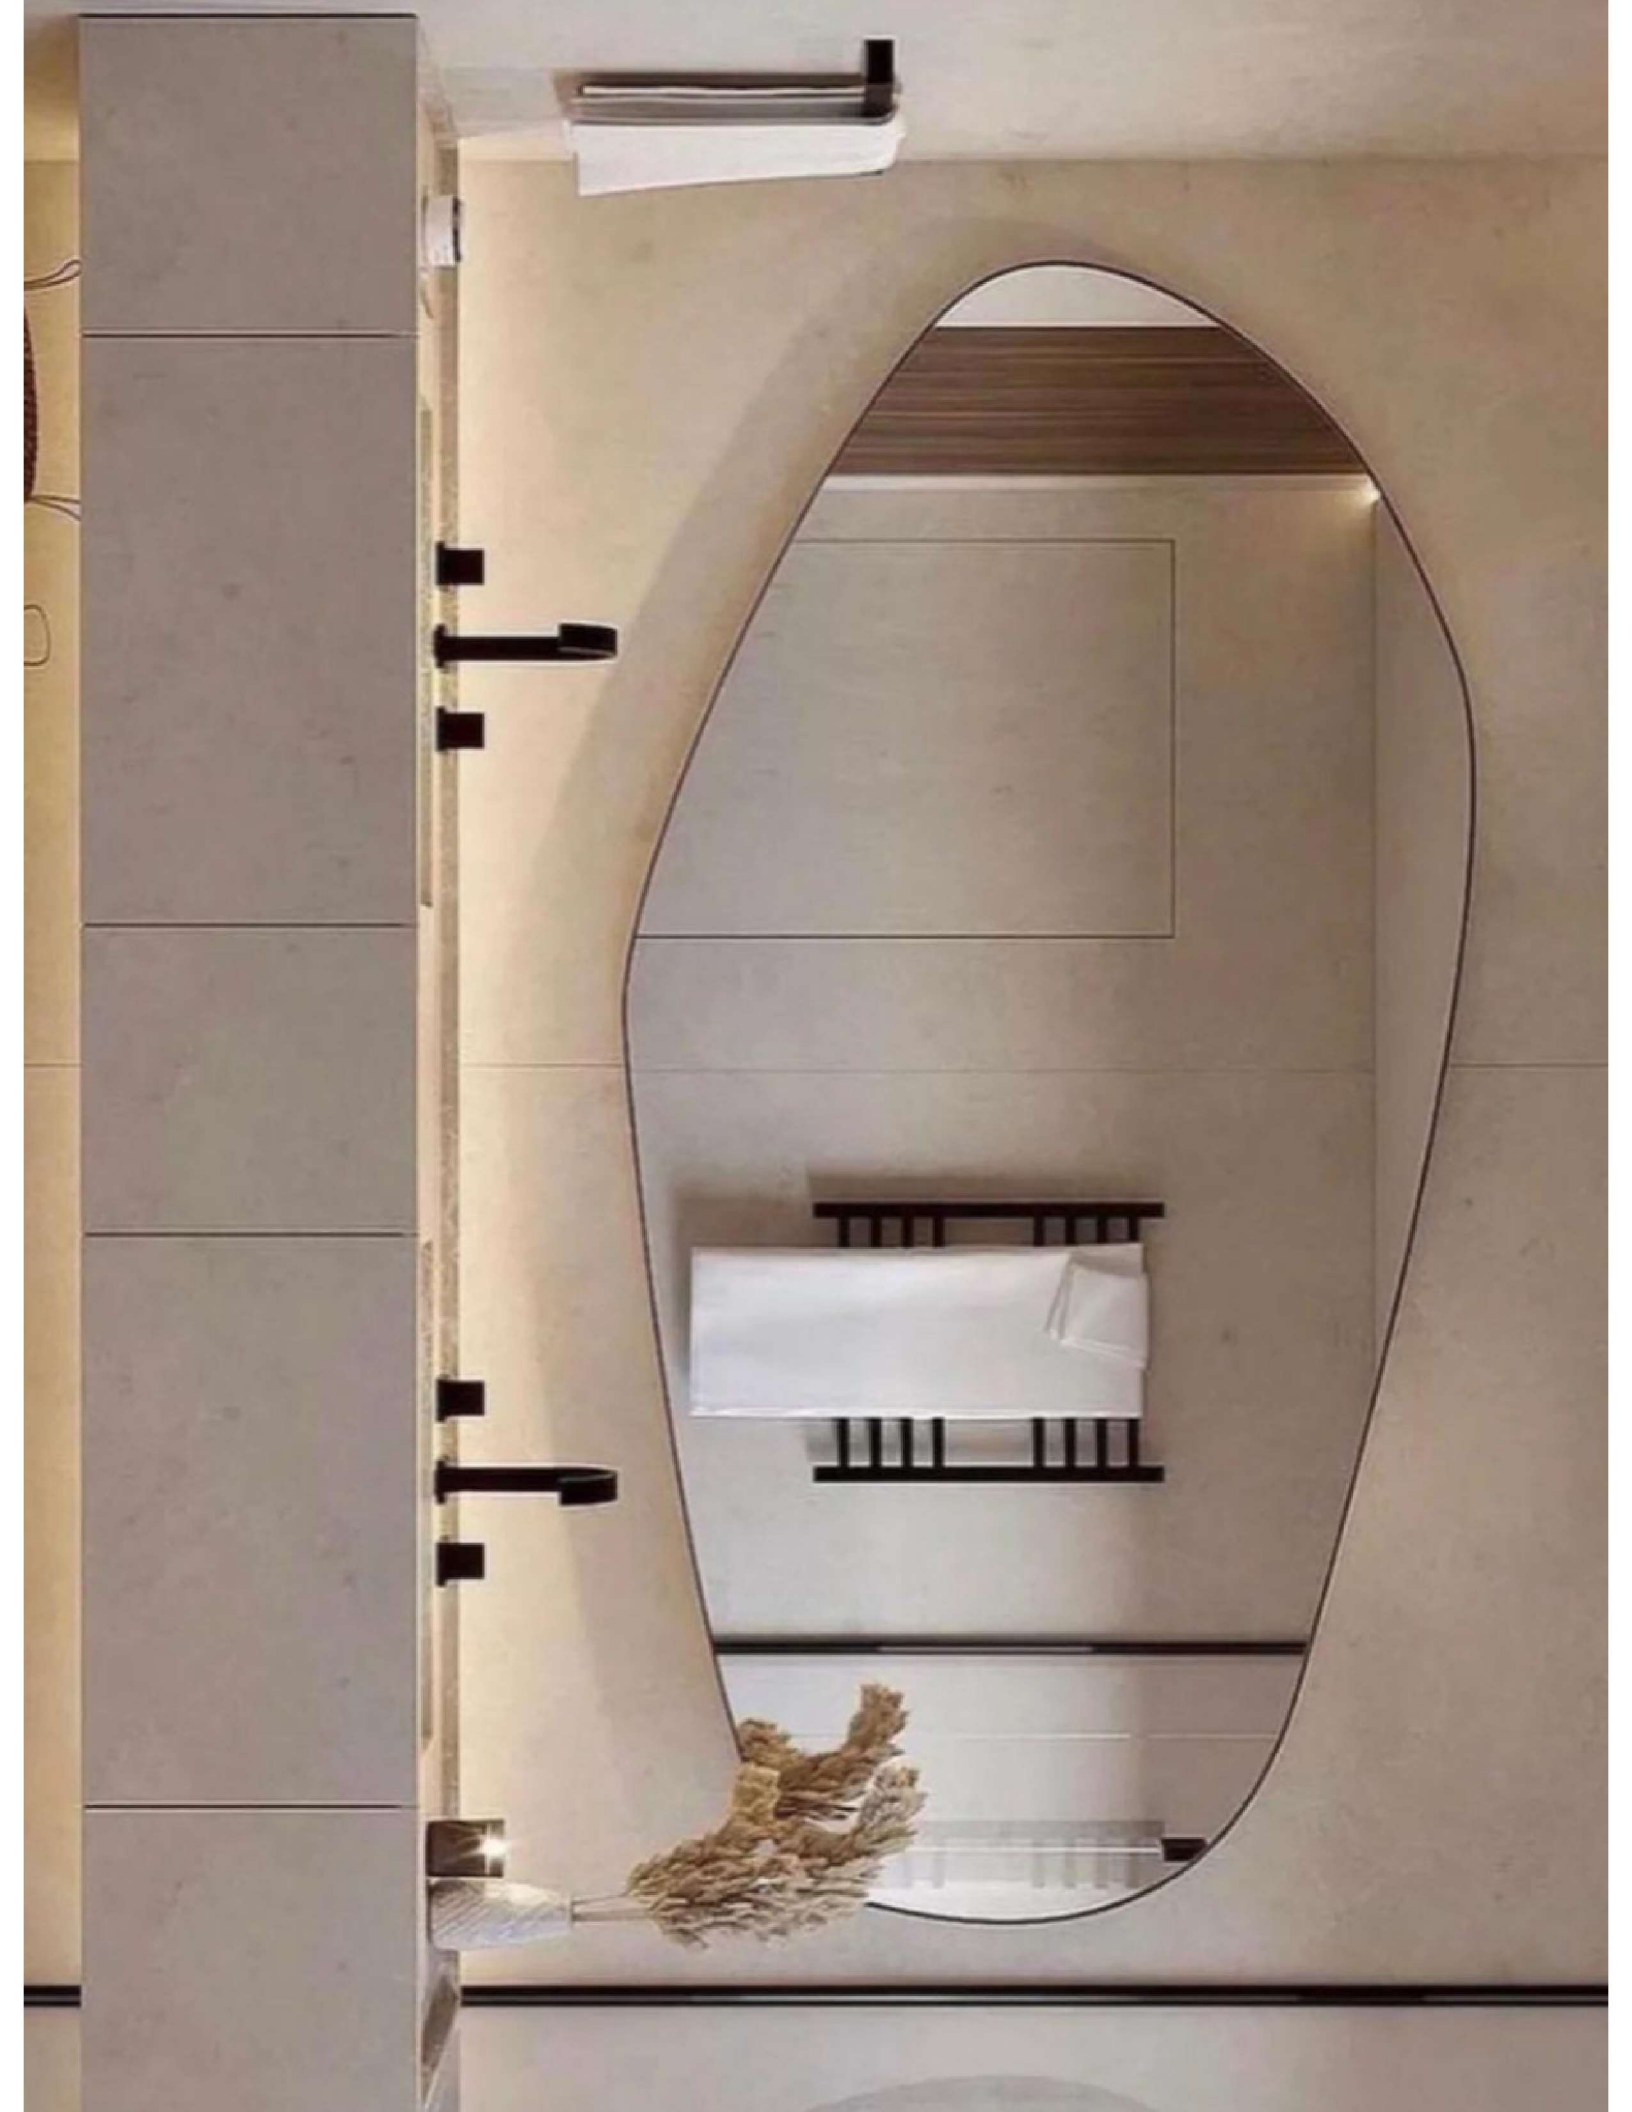

Low Iron Glass

Low iron glass minimizes the greenish tint found in standard glass, resulting in superior clarity and color accuracy, making it an ideal choice for applications where true color representation matters.

Mirror

Elevate your reflection with our exceptional high-end mirrors, thoughtfully designed to capture a spectrum of enchanting shades and artistic shapes, adding a touch of elegance to every space.

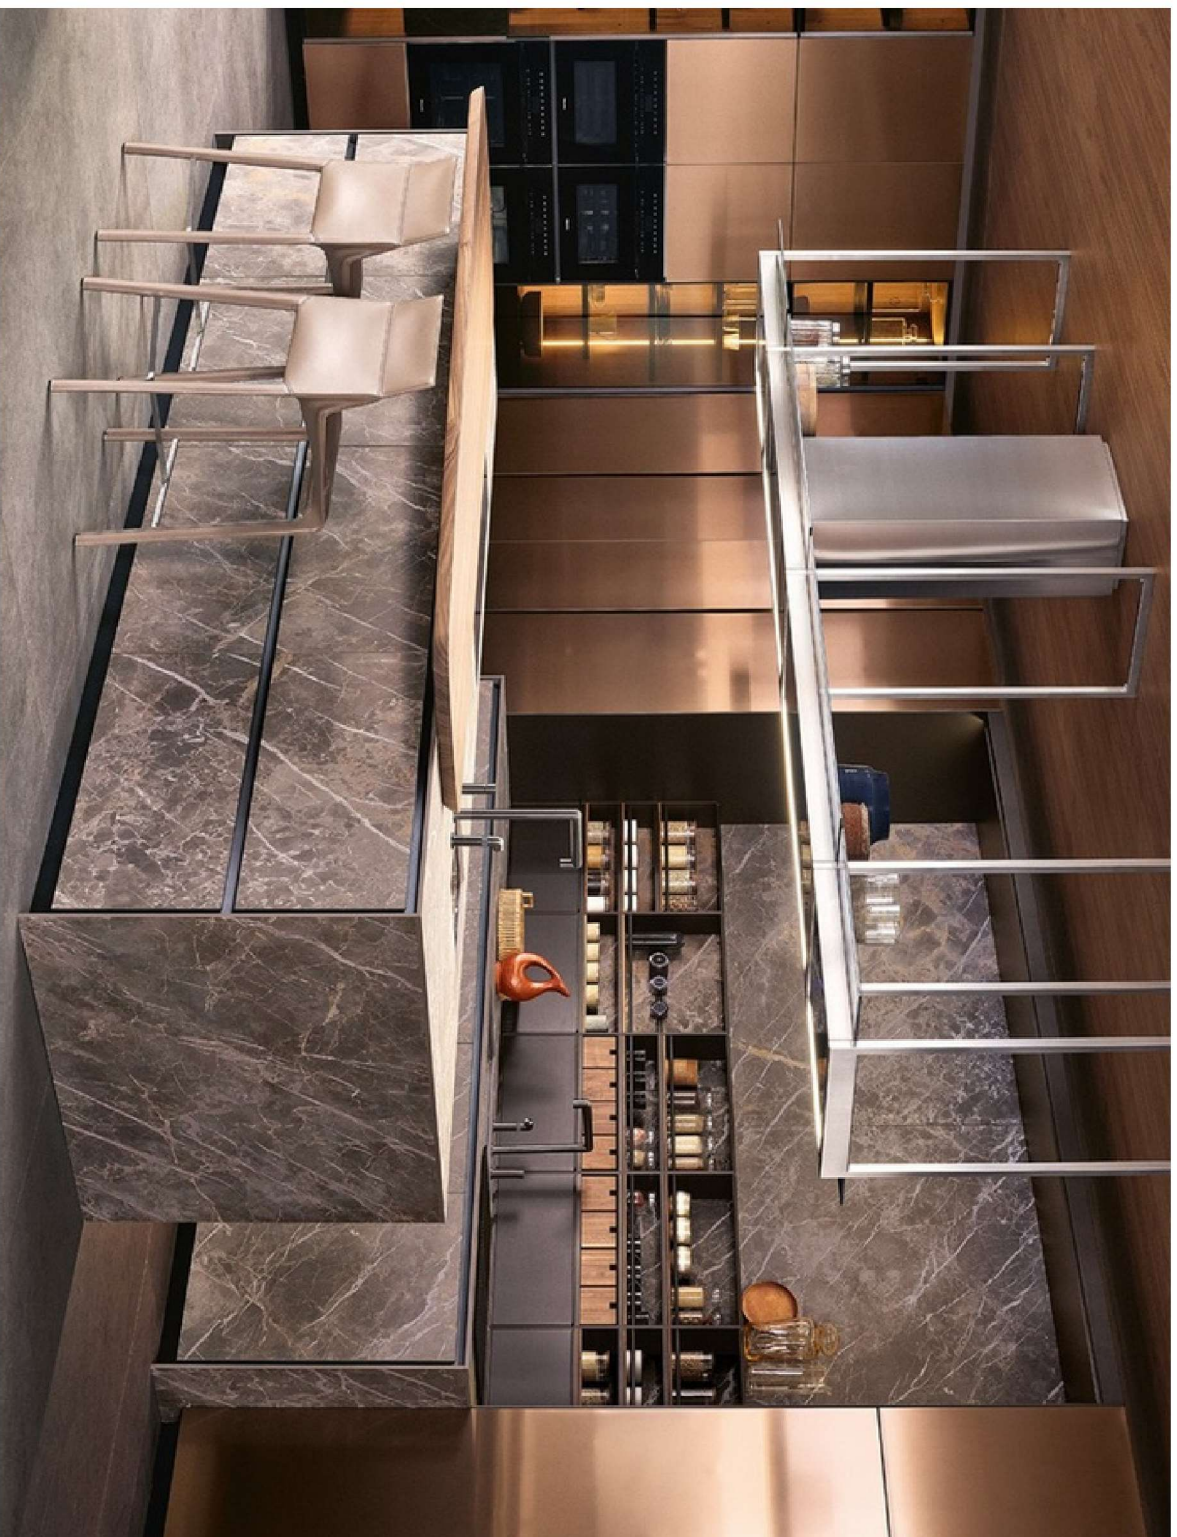

Bronze Mirror

Bronze glass is a contemporary classic material, which introduces a warm and timeless glow to any space. Its subtle reflective properties create an alluring play of light and shadow.

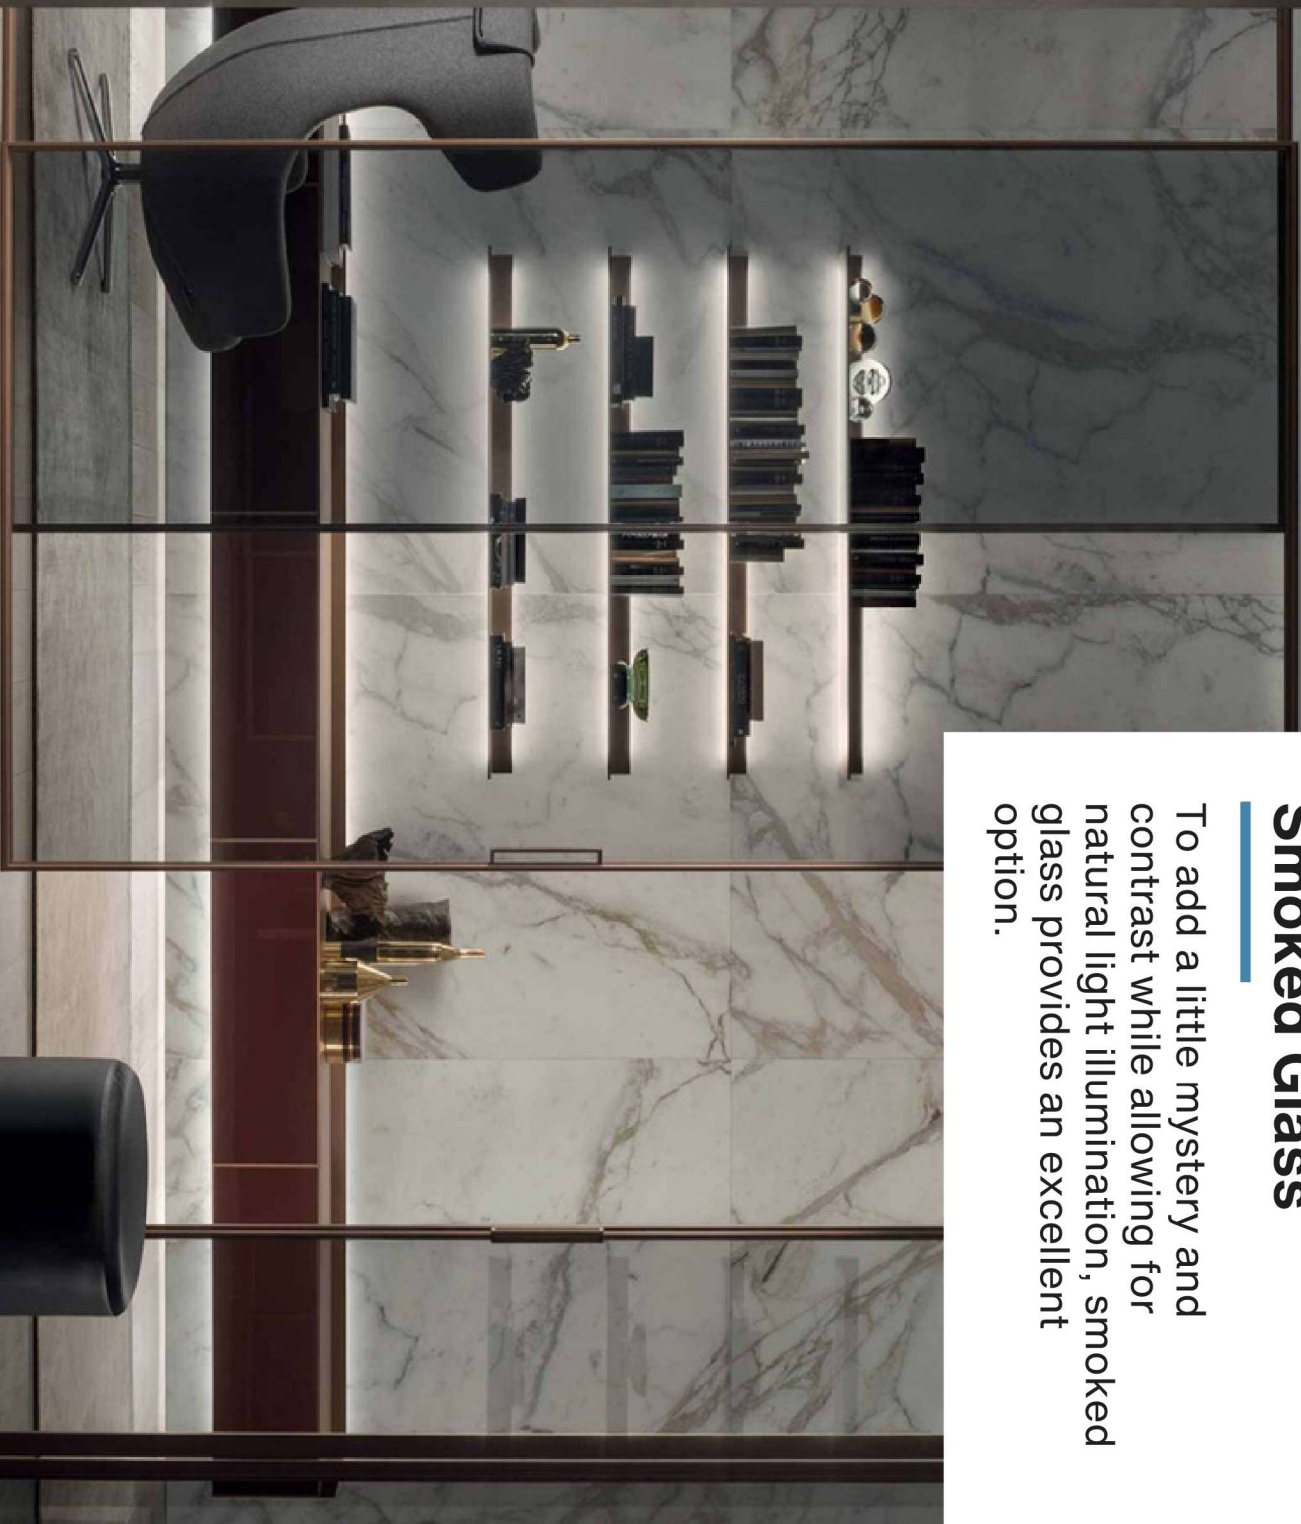

Acid Etched Mirror

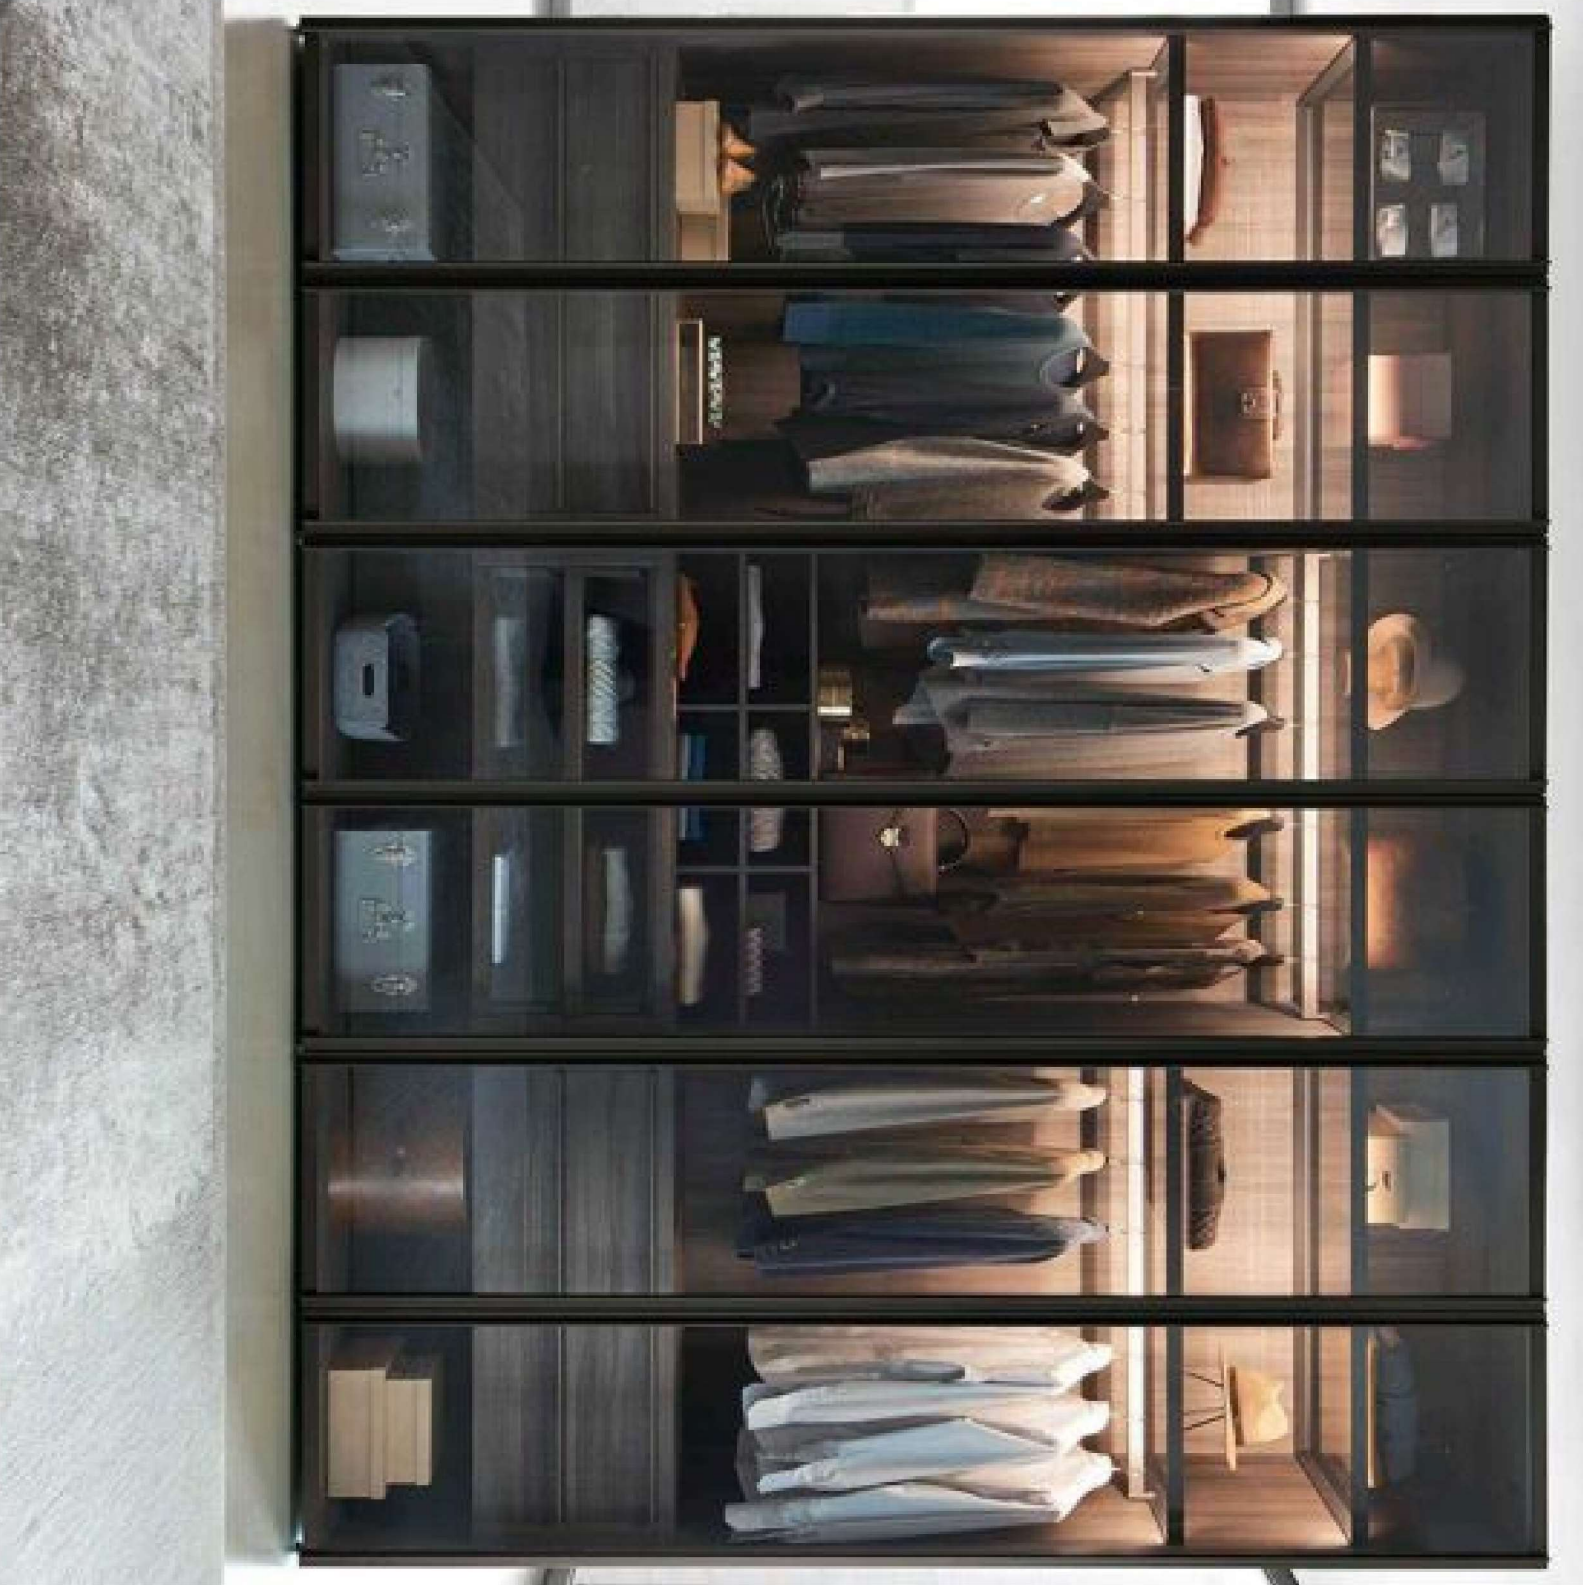

Our acid-etch process creates a silky smooth finish with subtle reflectivity and a unique approach to interior design

**Mirrors that
Captive**

Smoked Glass

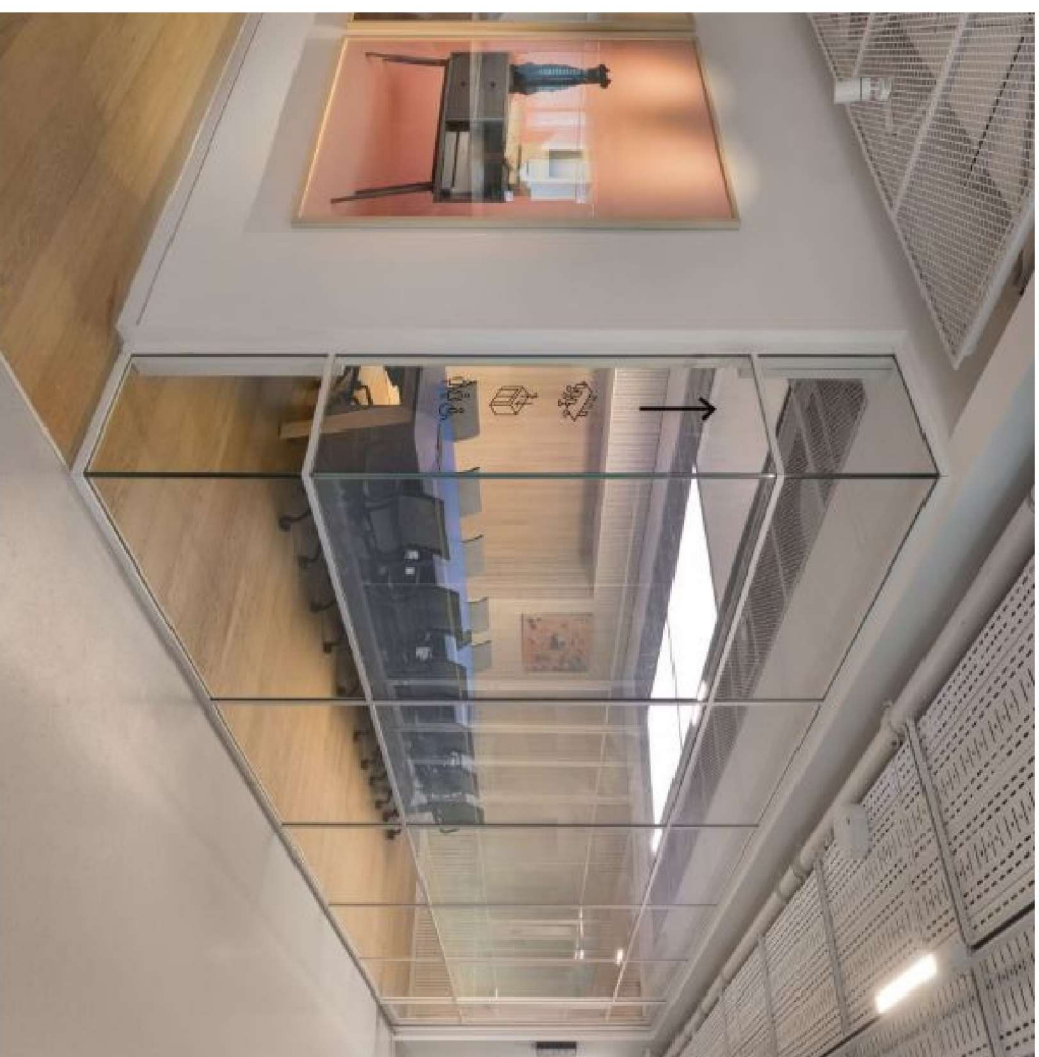

To add a little mystery and contrast while allowing for natural light illumination, smoked glass provides an excellent option.

Dynamic Switchable Glass

Smart Glass

Experience the evolution of intelligent design, offering you the power to instantly transform your environment from transparent to opaque, all while maintaining an air of modern elegance.

Insulated Glass

Crafted with precision, our insulated glass create a temperature-controlled environment.
