Empowering Exponential Growth

Today, the data you want lives
in multiple places and they
don't speak to each other

Multiple Systems No Cohesion

1

Ecommerce data lives
in open source

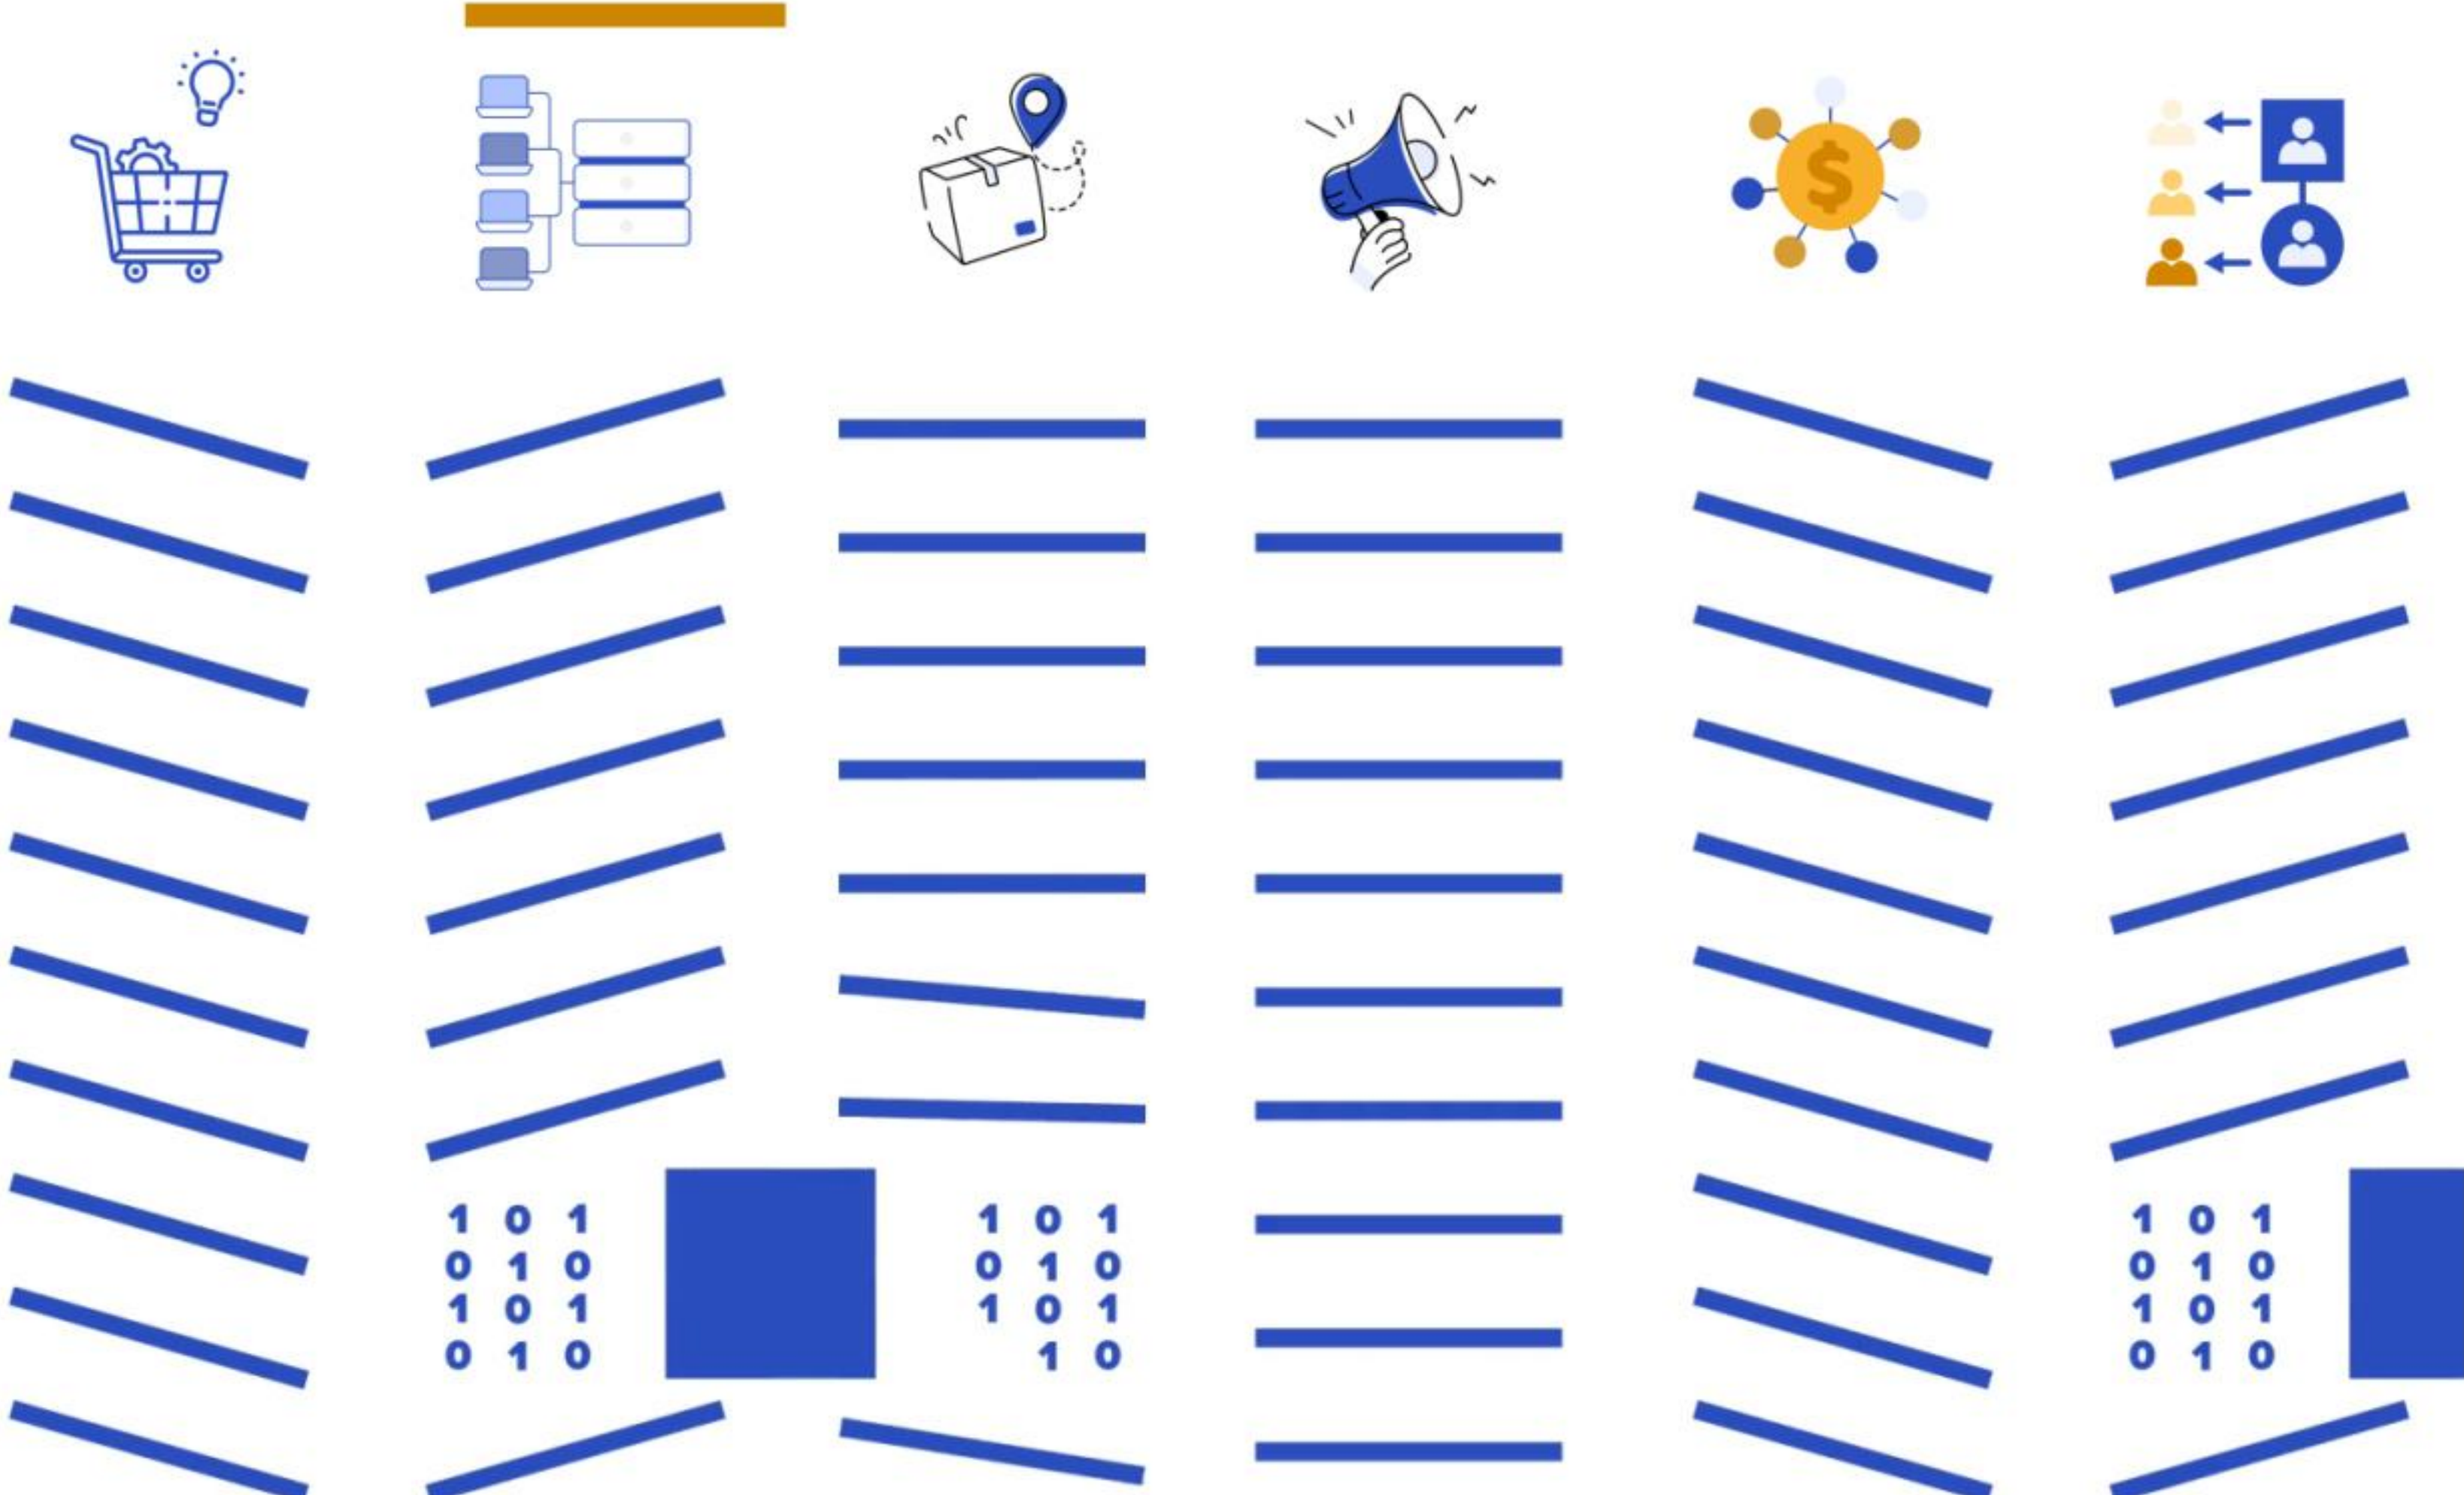

Different departments use
different tools, creating
inefficiencies and security risks

Multiple Systems No Cohesion

2

WMS got ERP

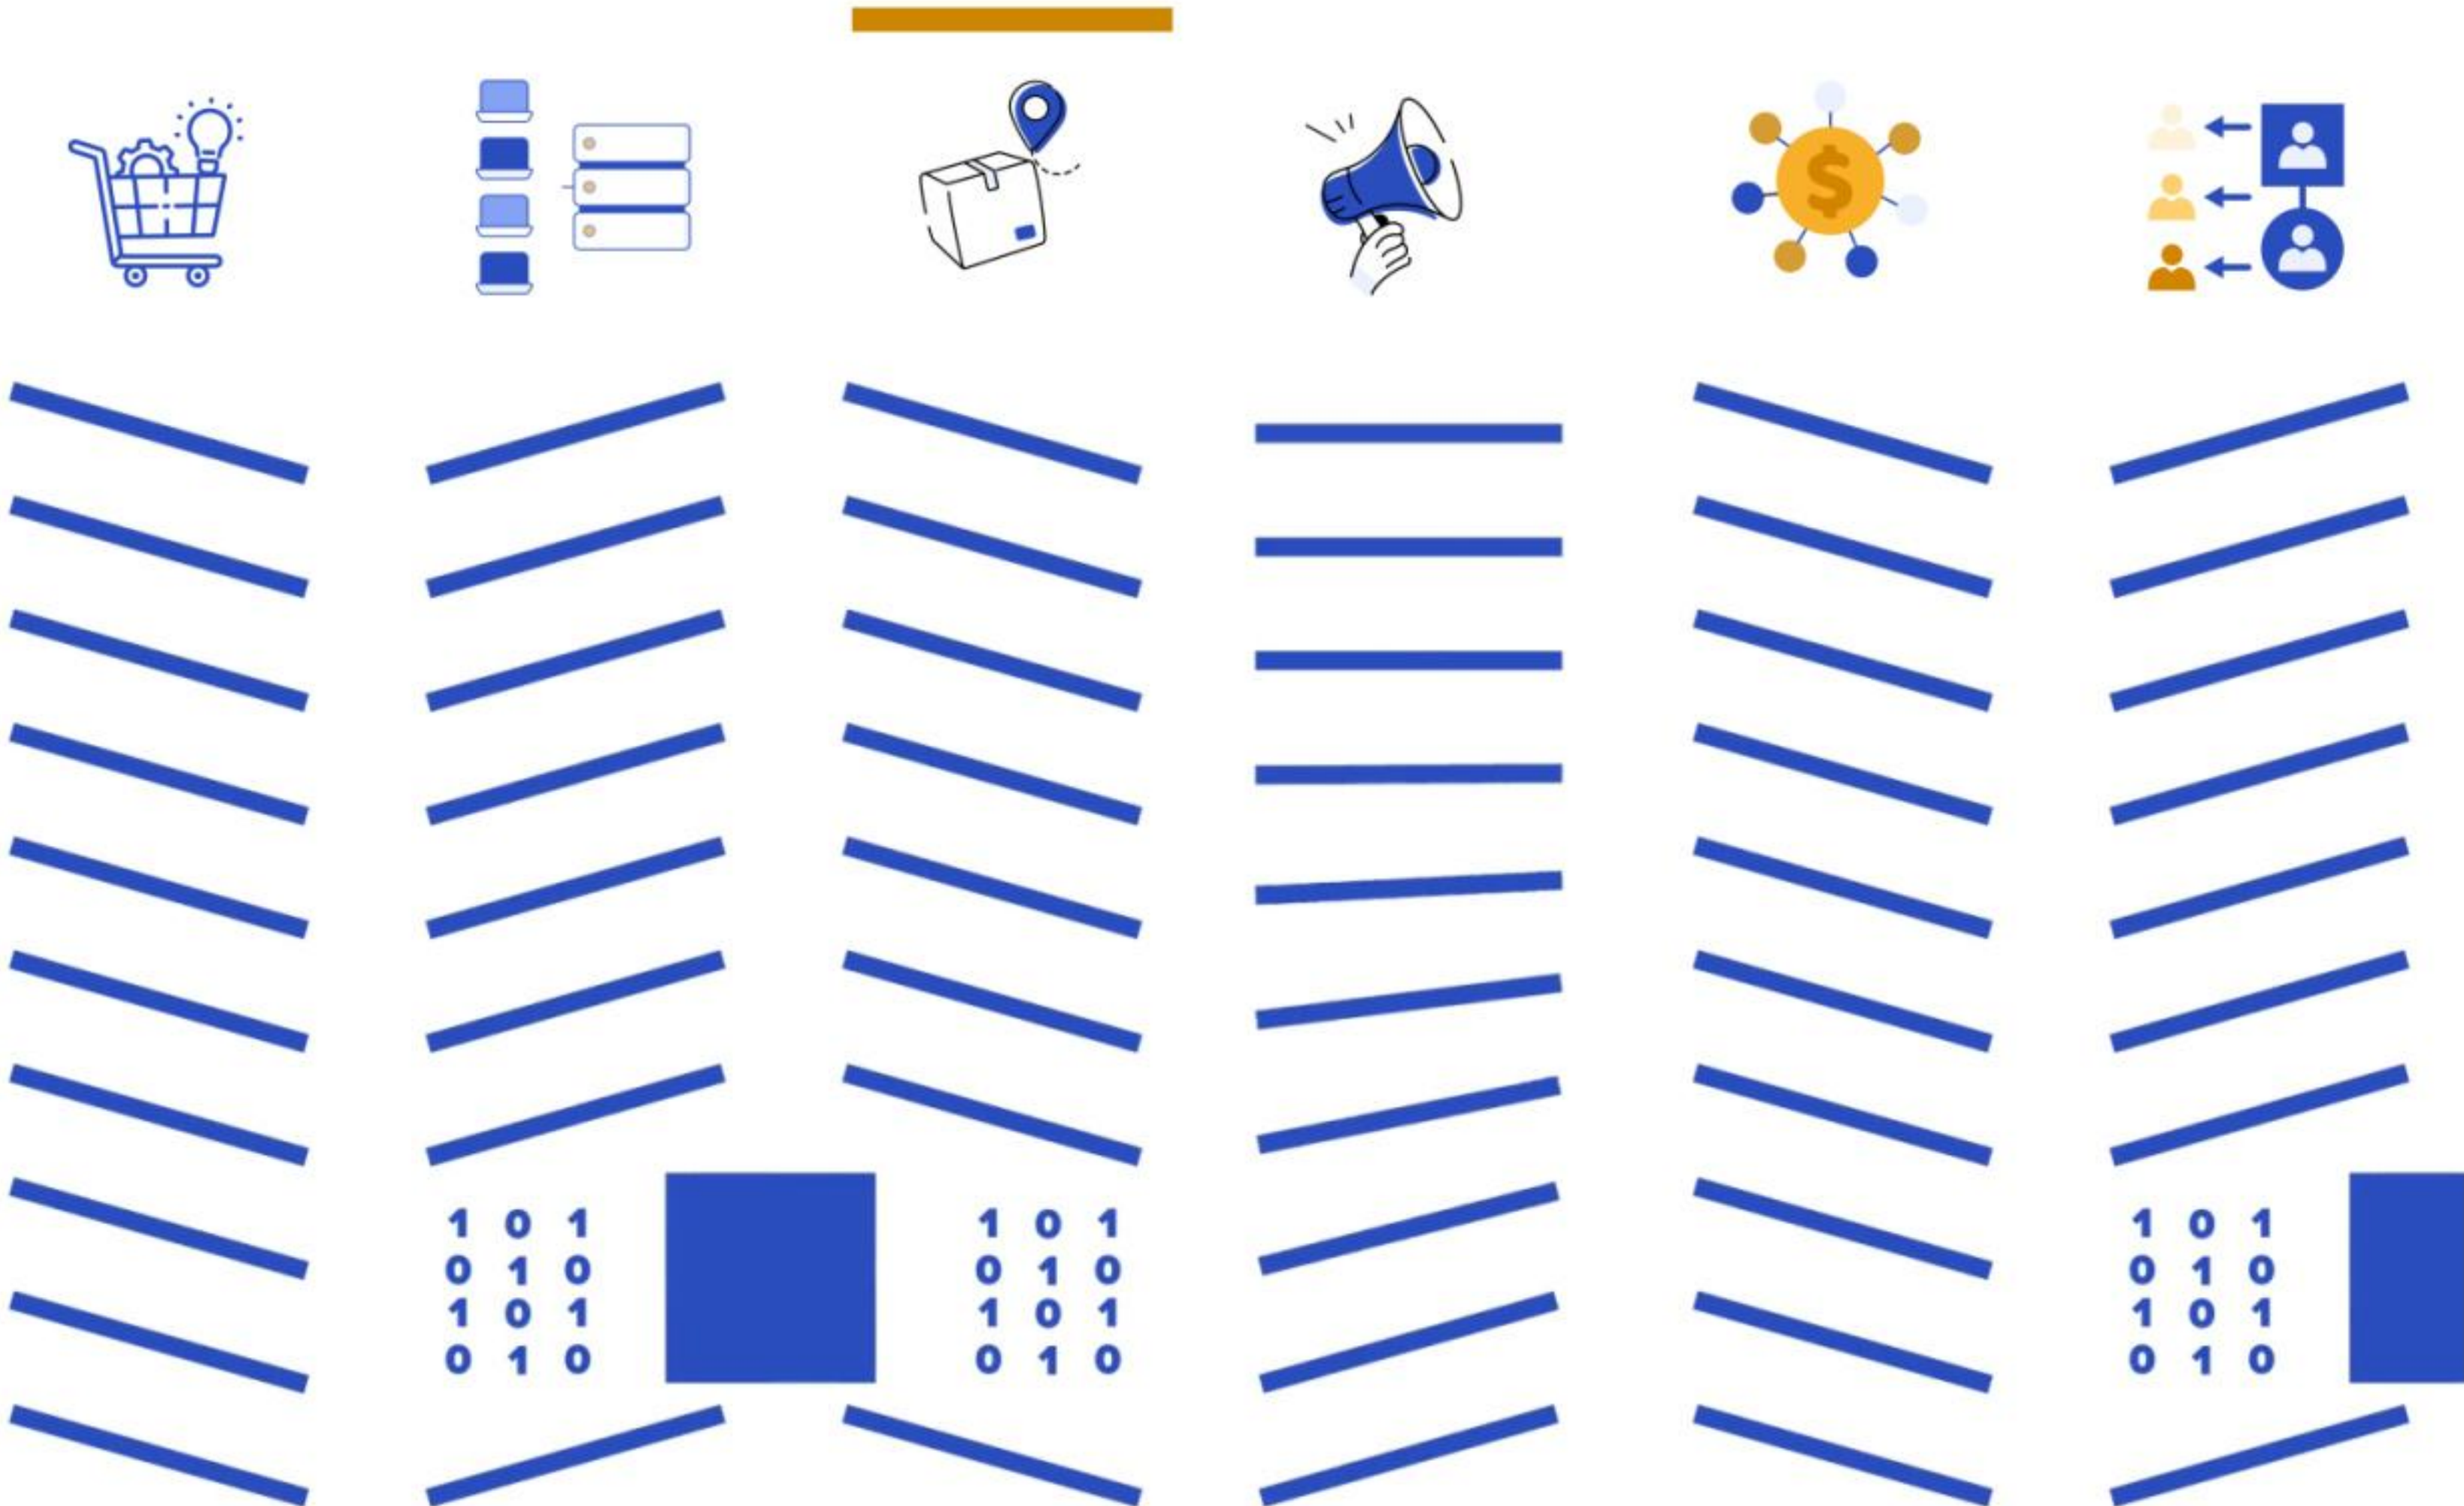

Different departments use different tools, creating inefficiencies and security risks

Multiple Systems No Cohesion

3

Supply chain is outsourced
to proprietary application
