WHAT IS A RANGER?

You are a skilled scout and hunter, excelling in tracking down and defeating your chosen prey.

EQUIPMENT

The following rules apply to Harsk's equipment.

Agile (trait) The multiple attack penalty you take with this weapon on the second attack on your turn is -4 instead of -5, and -8 instead of -10 on the third and subsequent attacks in the turn. (See Harsk's hunter's edge class ability, which further reduces this penalty against his Prey.)

Arboreal Boots (invested, primal) These soft leather boots are embossed with simple woodland scenes. The boots grant a +1 item bonus to Acrobatics (already added to Harsk's stats) and allow you to ignore difficult terrain from plants and fungi.

Backpack A backpack holds up to 4 Bulk of items, and the first 2 Bulk of these items don't count against your Bulk limits. If you're carrying or stowing the pack rather than wearing it on your back, its Bulk is light instead of negligible.

Backstabber (trait) This weapon deals 1 additional precision damage to off-guard enemies.

Coyote Cloak (invested, magical) This dusty cloak is made of mangy brown-and-gray coyote fur. You gain a +1 item bonus to Survival checks (already added to Harsk's stats). If you critically succeed at your Survival check to Subsist, you can feed twice as many additional creatures.

Doubling Rings (invested, magical) When you wield a melee weapon in a hand wearing one of these rings, the weapon's fundamental runes are replicated onto any melee weapon you wield in the hand wearing the other ring. The replication functions only if you wear both rings, and it ends as soon as you cease wielding a melee weapon in one of your hands.

Dwarf (trait) Dwarves craft and use these weapons.

☐ **Elixir of Life, Lesser** (alchemical, consumable, elixir, healing) **Usage** held in 1 hand; **Activate** ◆ (manipulate); **Effect** Upon drinking this elixir, you regain 3d6+6 Hit Points and gain a +1 item bonus to saving throws against diseases and poisons for 10 minutes.

Grappling Hook You can throw a grappling hook with a rope tied to it to make a climb easier. To anchor a grappling hook, make a ranged attack roll using your simple weapon proficiency against a DC depending on the target, typically at least DC 20. This attack has the secret trait. On a success, your hook has a firm hold, but on a critical failure, the hook seems like it will hold but actually falls when you're partway up.

Parry (trait) This weapon can be raised defensively to block attacks. While wielding this weapon, you may use an Interact action to position it defensively, gaining a +1 circumstance bonus to AC until the start of your next turn.

Reload 1 (trait) It takes 1 Interact action to reload this weapon.

Repair Toolkit A repair toolkit allows you to perform simple repairs while traveling. It contains a portable anvil, tongs, woodworking tools, a whetstone, and oils for conditioning leather and wood. You can use a repair toolkit to Repair items using the Crafting skill. You can draw and replace a worn repair toolkit as part of the action that uses it.

Sweep (trait) When you attack with this weapon, you gain a +1 circumstance bonus on your attack roll if you already attempted to attack a different target this turn using this weapon.

Thrown (trait) You can throw this weapon as a ranged attack. A thrown weapon adds your Strength modifier to damage just like a melee weapon does. When this trait appears on a melee weapon, it also includes the range increment in feet.

Two-Hand (trait) This weapon can be wielded with two hands, changing its weapon damage die to the indicated value. This change applies to all the weapon's damage dice.

Versatile (trait) A versatile weapon can be used to deal a different type of damage than its listed type. For instance, a piercing weapon that has "versatile B" can be used to deal piercing or bludgeoning damage. Choose the damage type each time you make an attack.

FEATS AND ABILITIES

Harsk's feats and abilities are described below.

Assurance - Athletics (fortune) Even in the worst circumstances, you can perform basic tasks with the Athletics skill. You can forego rolling a skill check for your chosen skill to instead receive a total check result of 23 (do not apply any modifiers to this result).

Combat Climber Your techniques allow you to fight as you climb. You're not offguard while Climbing and can Climb with a hand occupied. You must still use another hand and both legs to Climb.

Defy the Darkness You gain greater darkvision, enabling you to see through magical darkness even if it normally hampers darkvision (such as the darkness created by a 4th-rank *darkness* spell). You can't cast spells with the darkness trait, use item activations with the darkness trait, or use any other ability with the darkness trait.

Diehard It takes more to kill you than most. You die from the dying condition at dying 5, rather than dying 4.

Dwarven Weapon Familiarity You are trained with dwarven waraxes. Whenever you get a critical hit with a dwarven waraxe, you get its critical specialization effect (see the effect under Ranger Weapon Expertise below).

Expeditious Search You have a system that lets you search at great speed, finding details and secrets twice as quickly as others can. When Searching, you take half as long as usual to Search a given area. This means that while exploring, you double the Speed you can move while ensuring you've Searched an area before walking into it (up to half your Speed).

Forager While using Survival to Subsist, if you roll any result worse than a success, you get a success. On a success, you can provide subsistence living for yourself and eight additional creatures, and on a critical success, you can take care of twice as many additional creatures. You can choose to support half the number of creatures with a comfortable living.

Hunt Prey ◆ (concentrate) You designate a single creature you can see or hear, or that you are currently tracking during exploration as your prey. You gain a +2 circumstance bonus to Perception checks when you Seek your prey and a +2 bonus to Survival checks when you Track your prey. You also ignore the penalty for making ranged attacks within your second range increment against the prey you're hunting. You can only have one creature designated as your prey at a time, and designating a new creature as your prey causes any previously marked creature to lose the designation. Your designation otherwise lasts until your next daily preparations.

Hunter's Edge (Flurry) Your multiple attack penalty for attacks against your hunted prey is -3 (-2 with an agile weapon) on your second attack of the turn and -6 (-4 with an agile weapon) on your third or subsequent attack of the turn.

Monster Hunter You quickly assess your prey and apply what you know. As part of the action used to Hunt your Prey, you can attempt a check to Recall Knowledge about your prey. When you critically succeed at identifying your hunted prey with Recall Knowledge, you

note a weakness in the creature's defenses in addition to any other benefits. You and allies you tell gain a +1 circumstance bonus to your next attack roll against that prey. You can give bonuses from Monster Hunter only once per day against a particular creature.

Monster Warden When you grant bonuses from Monster Hunter, you and your allies also each gain a +1 circumstance bonus to your next saving throw against that particular creature and to your AC against that creature's next attack against you.

Natural Reflexes You've honed your reflexes dodging falling trees and pounding hail. When you roll a success on a Reflex save, you get a critical success instead.

Ranger Weapon Expertise You gain every advantage from your weapons. Your proficiency rank for martial weapons, simple weapons, and unarmed attacks increases to expert. You gain access to the critical specialization effects of all such weapons and unarmed attacks when attacking your hunted prey.

Clan Dagger: The target takes 1d6 persistent bleed damage. You gain an item bonus to this bleed damage equal to the weapon's item bonus to attack rolls.

Dwarven Waraxe: Choose one creature adjacent to the initial target and within reach. If its AC is lower than your attack roll result for the critical hit, you deal damage to that creature equal to the result of the weapon damage die you rolled (including extra dice for its *striking rune*, if any). This amount isn't doubled, and no bonuses or other additional dice apply to this damage.

Hatchet: See Dwarven Waraxe above.

Arbalest: The target takes 1d8+1 persistent bleed damage.

Scout's Warning  **Trigger** You are about to roll a Perception or Survival check for initiative; **Effect** You visually or audibly warn your allies of danger, granting them each a +1 circumstance bonus to their initiative rolls. Depending on whether you use gestures or call out, this action gains either the visual or the auditory trait, respectively.

Skirmish Strike  (flourish) Your feet and weapon move in tandem. Either Step and then Strike, or Strike and then Step. (This action has the flourish trait; you can only use one action with the flourish trait each round.)

Strong-Blooded Dwarf You gain poison resistance 2, and each of your successful saving throws against a poison affliction reduces its stage by 2, or by 1 for a virulent poison. Each critical success against an ongoing poison reduces its stage by 3, or 2 for a virulent poison.

Terrain Expertise (Forest) Your experience in navigating a certain type of terrain makes you supremely confident while doing so. You gain a +1 circumstance bonus to Survival checks in forests.

Trackless Journey When you move through natural terrains, you are hard to track. You always gain the benefits of the Cover Tracks action in such terrains, without moving at half your Speed.
