+351 912 984 223 Porto, Portugal

About me: I design digital products and marketing experiences across web, SaaS, and no-code platforms. Sometimes I build them too.

Skills: UI/UX Design, No-Code Development, Product Design, Prototyping
Information Architecture, Design Systems, Wireframing, User Flows

Tools: Figma, Framer, Webflow, Notion, Adobe CC, ChatGPT, Claude

Experience: **Product Designer (Full-Time), Alleyesonme.jobs, Luxembourg**

alleyesonme.jobs 2025 - Present

- Partnered with product, business and marketing stakeholders to design and ship 5+ production experiences across Framer and Webflow, owning UX, information architecture, and implementation end-to-end, including a B2B experience achieving a 13% CTR to signup.
- Built and scaled a CMS-driven content ecosystem spanning 350+ pages and reaching 2,700+ visitors over a 30-day period, through responsive design, SEO and reusable design patterns.

Co-founder and UI/UX Designer, Linnea Studios

linneastudios.com 2024 - Present

- Co-designed and shipped 8+ client projects alongside a senior product designer, product owner, and marketing lead, spanning e-commerce, media/CMS platforms, high-end event brands, and creator content.
- Owned UX and design across projects, balancing client goals and technical implementation while driving the full design pipeline from concept to delivery.

Freelance Product Designer, Self-Employed

2023 - Present

- Led UX and visual design across SaaS, blockchain, creator platforms and marketing experiences, from early concepts to production-ready interfaces.
- Designed and shipped digital experiences across multiple industries, including a 30+ screen blockchain security web app and landing page, plus a partnership-focused website and media kit for a 60K+ football brand.

Education: **Master of Architecture, University of Porto (FAUP)**

2023

Languages: Portuguese, **Native** English, **C1–C2** Spanish, **Intermediate** Japanese, **Intermediate**
