

Hi, I'm Maciej ma•chey

I'm Maciej Wachowicz, a Junior Product Designer with a passion for creating intuitive and user-friendly experiences. My transition from a 6-year architecture career to product design, enhanced by postgraduate studies and specialized courses, provides me strong grasp of design dynamics and allows to create functional and visually compelling user-centered designs.

When I'm not designing, I enjoy spending time outdoors, traveling, and exploring both natural and urban environments. These experiences enrich my approach to UX & Product design, infusing my work with diverse and global insights.

Check out my [work](#), connect with me on [LinkedIn](#), or [drop me a line!](#)
