Alvin Kibet Kwalia

Product & Framer Designer

I am a versatile product designer with extensive experience working with startups, SMEs, and personal brands. My portfolio includes a diverse range of projects, from SaaS and game UI design to product and business landing pages. [<https://kwalia.framer.website/>].

Experience

2022-2022

Metawild | [Metawild.vercel.app](https://metawild.vercel.app)

Product Manager

- Organized and led a team for a Web3 project combining tourism, augmented reality, and virtual reality during an industrial attachment in late 2021.
- Utilized blockchain expertise to advance the project until resource limitations led to its suspension in March.
- Managed a diverse team of coders, videographers, photographers, and marketers.
- Gained vital project management skills, including team coordination and resource allocation.
- Learned the process of delivering a minimum viable product (MVP) from scratch.

2022-Present

Wavu Labs | [Wavulabs.com](https://wavulabs.com)

Products & Design

- Co-founded this agency, actively shaping the company's vision by conceptualizing and realizing ideas for internal products.
- Assist clients and partners in refining their concepts and guiding them from ideation to fruition, including product design.
- Serve as a liaison with developers to ensure seamless project execution.
- Leading the company's redesign and rebranding efforts to focus on the startup niche.

2022-Present

Wavu Wallet & Dish

Products & Design

- Inspired by a client's restaurant discovery concept, proposed a merchant loyalty idea.
- Conducted thorough user interviews and team discussions to identify two key elements: a specialized SaaS solution for restaurants and an associated wallet system.
- Designed the initial mobile app, set for launch in late 2024 at selected restaurants.
- Designing KPIs dashboard and product landing page.
- Designed the investor PowerPoint pitch deck.

2023 - Present

Fantasy Fables | [Fantasyfables.framer.website](https://fantasyfables.framer.website)

Products & Design

- Crafted and built the website using Framer.
- Involved in designing the books and refining the educational content.
