

Amber's Legacy

THEN, NOW, FOREVER

CERVICAL CANCER AWARENESS

PREVENTABLE CASES

99.8%

Cervical cancer cases are preventable, UK, 2015

SUPPORT AND RESOURCES

A person's risk of developing cancer depends on many factors, including age, genetics, and exposure to risk factors (including some potentially avoidable lifestyle factors).

Visit our website at Amber's Legacy to find out more information and the work the charity does.
