

Hi!

Happy New Year!

We are so over the moon for 2024 and get so excited for new beginnings and fresh starts. Do you have any goals or resolutions for 2024? I would love to hear them. [click here to email me your goals and resolutions](#). it inspires me to see what others are planning in the new year!

**Have you heard the term "Max Out"?**

My boys attend Lubbock Christian School and if you haven't heard, it's amazing. We are so grateful to be a part of that culture. One of the mantras of the athletic department is to give a "Max Out" effort - for example, give it all you've got at all times knowing you always did your best.

Our hope for you as a patient at Cornerstone Audiology is that we are able to "Max Out" your hearing experience! We want to give you the best we've got so that you can enjoy all the sounds of your life!

How do we do this?

- We want to understand your goals, your hearing history and your struggles in understanding conversations in different areas of your life. Are there places you don't go because you can't hear well?
- Annual hearing check-ups - Much like your glasses, it is important to make sure your prescription in your hearing aids is current - each time we test your hearing, we reprogram your devices to match the latest hearing targets - if you don't wear hearing aids, it is important for us to monitor your hearing annually for any changes
- Cleaning your ears - it doesn't do any good to have the best hearing aids around if you have an ear full of wax! We will check this at your annual hearing appointment
- Clean your hearing aids - we recommend coming in to have your hearing aids cleaned every 4 months to maintain maximum performance - during these appointments we remove debris from microphones, clean under casing, replace parts and get you going!
- Update the software in your devices - many times your devices require a software update to maintain connectivity and performance - we also take care of this at your annual appointment.
- Explore creative options for new hearing devices or accessories (TV Streamers, companion mics, etc.) in order to enhance your listening experience

[Click here to email](#) and we will get you scheduled for your "Max-Out" appointment! We are here for you in 2024! ❤️

*Dr. Julie Hubit*

## 2023 HIGHLIGHTS

Some of our special stand-out moments from a wonderful year

### #1 - Hearing is Worth Sharing

We are so proud of the people you helped us help by utilizing our Hearing is Worth Sharing program and giving the gift of better hearing to someone in need! Look at these happy faces!

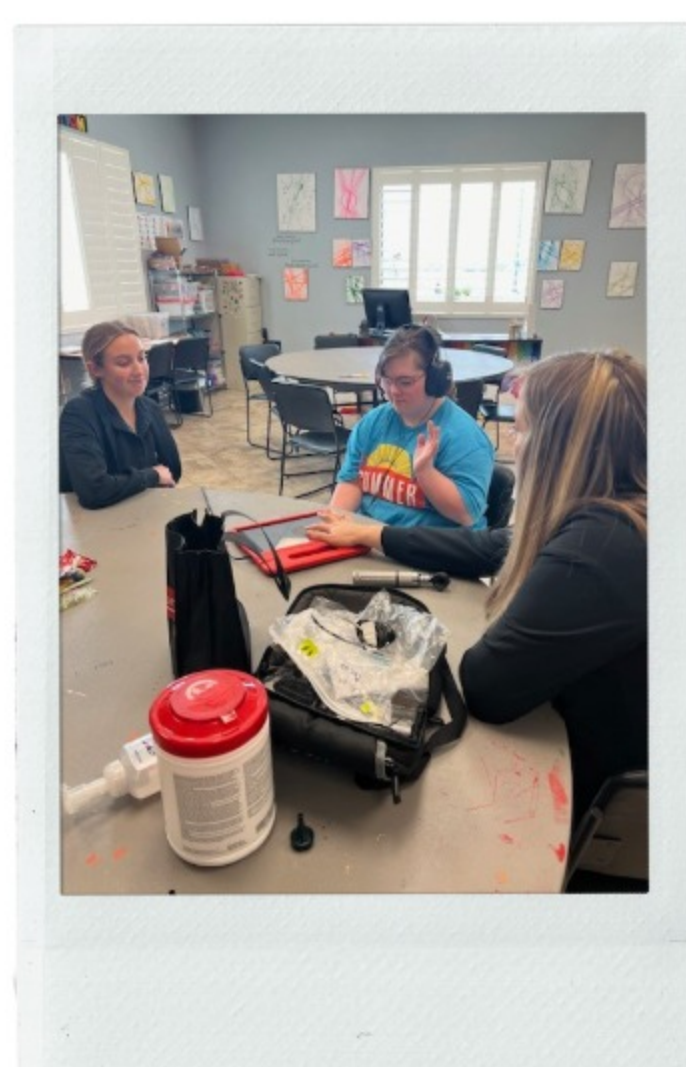

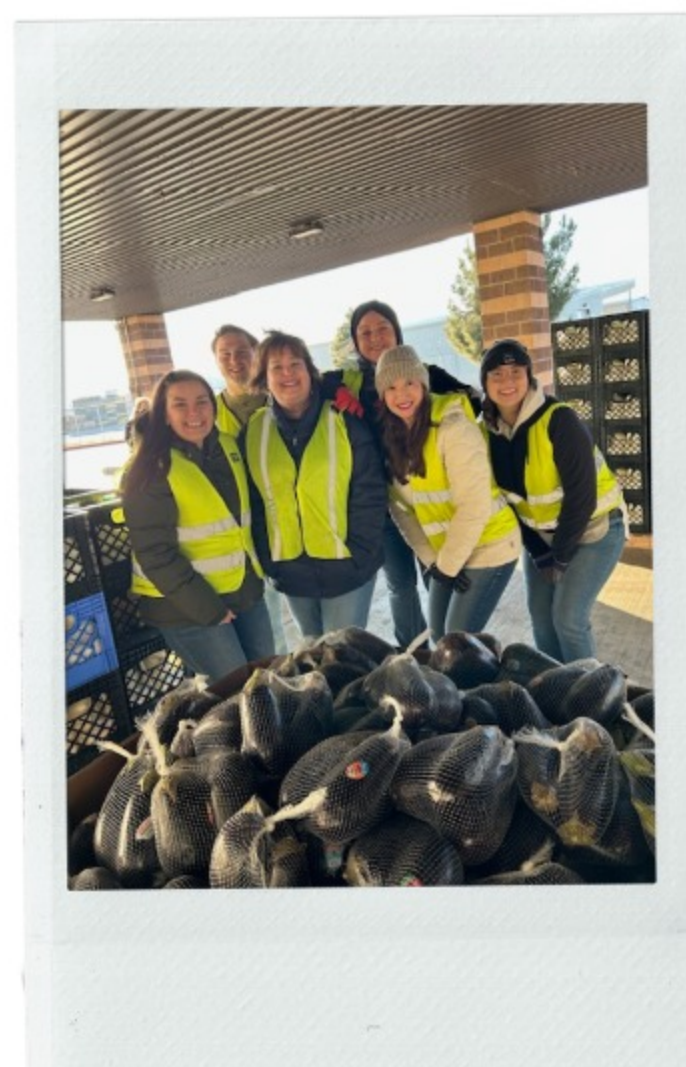

Thank you for participating in our program to give back to others!

### #2 - Team Development

In 2023, we invested in the team at Cornerstone Audiology! Strengths Finder Training helped each team member to understand their top 5 strengths in the workplace and put them in the position that they are most gifted to do. We want to utilize each team member effectively and give you the care you deserve!

We also served together in numerous places around town and loved it!

### Thank you for your support in 2023!

We love you with all of our hearts and can't wait to see you in the New Year! ❤️
