An old 18th-century  
Castello for you

A castle in Italian – and its  
whole village turned into a  
space to work and grow!

Thanks to the undisturbed  
nature, here you can get  
inspired and focus on what  
truly matters.

All while looking at the  
breathtaking scenery and  
making unforgettable

# GUEST FEEDBACK

A very special venue. Magical setting, positive vibes, a hidden gem around every corner. For our team, this was truly an experience we will remember and hold dear to our hearts for time to come. From the moment we arrived we were met by breathtaking views, amazing hospitality and a great energy both from the place itself as well as the people.
