English, Hindi and Marathi

ABOUT ME

I am a UX/UI designer focused on creating simple, useful, and engaging digital experiences. I enjoy understanding people, finding the problems behind their needs, and turning those insights into clear and intuitive designs. I'm curious about technology and always looking for ways to make products easier and better to use.

EXPERIENCE

ESSE Group of companies (2 week intern)

Design & Management Intern

- Created visual content for the company's social media using Adobe Illustrator.
- Designed graphics that supported the company's social media communication and online presence.
- Assisted with accounting and management tasks, including organizing and maintaining business records.
- Worked across creative and administrative tasks, gaining experience in both visual communication and business operations.

VOLUNTEER WORK

- Participated in beach clean up drives to help maintain cleaner public spaces.
- Volunteered at an old age home through donation.
- Ran approximately 7 km from Versova to Andheri as part of a marathon promoting environmental awareness.
- Planted 6 trees as part of an environmental initiative.

SKILLS
