

“High energy melodic-driven rock.”

TLMT blend soaring melodies, heavy riffs, and raw emotion into modern 90s rock, channeling their love for the anthems of the era into a sound that feels both nostalgic and fresh.

In 2025 the band reached new heights with the release of their new songs getting to 2'500 monthly listeners and 17'000 streams as of October 2025.

Their songs carry the spirit of the 90s into today – loud enough to shake the room, emotional enough to stay with you long after the lights go out.
