SKILLS

- Solidity
- JavaScript
- Rust
- OpenZeppelin, Uniswap
- Ethers.js, Web3.js
- Node.js
- Remix, Truffle framework,
- Hardhat Foundry, Chainlink
- Moralis
- Tokens, NFTs
- Oracles, exchanges, marketplaces
- Version Control: Git
- React.js
- Redux.js
- Blockchain Architecture Design

SUMMARY

Smart Contract Developer with a keen eye for detail and a passion for innovation. Possesses extensive expertise in data analysis, project management, and process optimization. Proficient in troubleshooting complex issues and implementing effective solutions. Skilled in developing innovative strategies to enhance efficiency and reduce costs. Well-versed in Solidity, JavaScript, and various blockchain technologies. Experienced in smart contract development, decentralized applications, and blockchain integration. A proactive team player with strong communication and leadership skills.

EXPERIENCE

April 2023 - Present

Blockchain Consultant

Freelance

- Led the startup team, overseeing development, design, and implementation of blockchain solutions.
- Developed custom smart contracts tailored to meet the specific needs of each client.
- Conducted regular code reviews and provided feedback to ensure high-quality deliverables.
- Collaborated closely with clients to understand their requirements and propose optimal blockchain solutions.
- Implemented security best practices to safeguard against potential vulnerabilities in blockchain systems.

March 2022 - March 2023

Blockchain Developer

Zeltatech Private Limited

- Created smart contracts to facilitate automated transactions on various blockchain networks.
- Analyzed existing blockchain architectures and proposed improvements to increase scalability, security, and performance.
- Developed comprehensive test plans to ensure quality assurance prior to production deployment of blockchain solutions.
- Provided technical guidance on the design, development, deployment and maintenance of blockchain-based systems.
- Resolved scalability issues related to transaction throughput on the blockchain network.
- Collaborated with product teams to define requirements for blockchain projects.
- Integrated user interfaces for interacting with decentralized applications.

- Industry-Specific Blockchain Applications
- Cross-Chain Communication
- Proof-of-Stake Mechanisms
- Blockchain Integration Strategies
- Interoperability Solutions

- Blockchain Governance Models
- Identity Management Solutions
- Decentralized Applications Development (dApps)
- Regulatory Compliance Awareness
- Blockchain Use Case Identification
- Digital Asset Management
- Blockchain Security Analysis
- Smart contract auditing
- Consensus Algorithms
- Cryptography
- Distributed Ledger Technology (DLT)
- Tokenomics
- Solidity Security Best Practices
- Web3 Development
- Smart Contract Deployment
- Ethereum Virtual Machine (EVM)
- Decentralized Finance (DeFi)
- Non-Fungible Tokens (NFTs)

LANGUAGES

- **English**
Bilingual
- **Hindi**
Fluent
- **Telugu**
Native

- Conducted research into new technologies related to blockchain development such as zero knowledge proofs and side-chains.
- Provided technical support to users of the platform regarding questions about wallet setup, transactions.

April 2020 - March 2022

Blockchain Consultant

Konnectsu Technologies Private Limited, Hyderabad, Telangana

- Collaborated closely with senior developers to troubleshoot and resolve technical issues in blockchain-based systems.
- Participated in brainstorming sessions to generate innovative ideas for improving blockchain solutions and processes.
- Assisted in conducting research on emerging blockchain technologies and trends to inform project development and decision-making.
- Provided technical guidance on the design, development, deployment, and maintenance of blockchain-based systems.
- Advised clients on regulatory compliance measures that need to be taken into consideration when launching a token sale or ICO campaign.
- Built prototypes demonstrating proof-of-concepts for proposed blockchain use cases.

February 2017 - January 2020

Business Development Manager

ANI Technologies, Hyderabad, Telangana

- Monitored competitor activities and developed strategies to gain market advantage.
- Fostered long-term business relationships with clients through meetings and follow-ups.
- Implemented innovative approaches to drive sales performance and exceed targets.
- Collaborated with cross-functional teams including marketing, operations, finance.

EDUCATION

January 2015

Bachelor of Business Administration

Osmania University

January 2012

Bachelor of Technology

National Institute of Technology, Calicut
