

Cash, delivered when it counts *most*.

Across the U.S., a generation of pilots is testing what happens when unconditional cash reaches mothers and infants during pregnancy and the earliest months of life. This brief maps where the work is happening, how much is being moved, and what comes next.

PROGRAMS

Active, upcoming, and concluded across the U.S.

26^{+DC}

STATES & D.C.

Plus the District of Columbia — a national footprint.

36K⁺

PARTICIPANTS

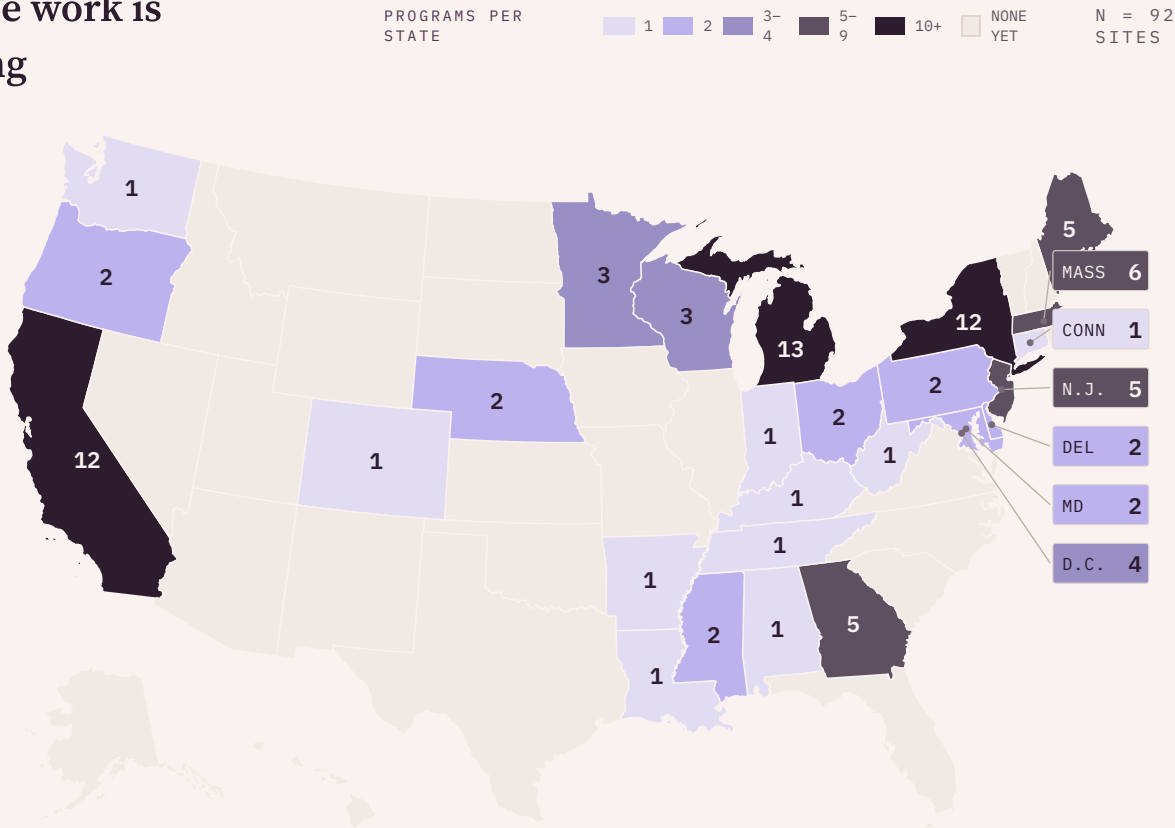

Cumulative enrollment in direct-cash programs.

\$368M⁺

DISTRIBUTED

Total cash committed directly to participants.

Where the work is happening

FIRST MOVER

The **Abundant Birth Project** launched in 2018: the first perinatal cash transfer program in the U.S.

MULTI-STATE REACH

The **Bridge Project** is the only program operating across multiple states: 24 sites in 14 states.

PIPELINE

11 upcoming programs are slated to launch in 2026, extending the network into *new states and rural geographies*.

EVIDENCE

46 programs use a randomized design, building the evidence base for cash as *maternal health policy*.

Every site, every *state*.

A complete inventory of perinatal cash transfer programs operating, planned, or recently concluded; grouped by state, with monthly transfer amount.
