Enabling young women to lead in the AI-powered *Future of Work* ✨

About Nimaya Foundation ✨

Co-founded by Navya Nanda and Samyak Chakrabarty, Nimaya is on a mission to ensure our naaris have an edge in leveraging AI at work instead of being at risk of being replaced by it.

Every Nimaya Naari we train is not just learning a skill, she's rewriting what's possible for herself, her family, and for countless girls who will follow in her footsteps.

In partnership with 50+ partners such as the **Government of India's Yuva AI mission** we have enabled **10,000+ Nimaya Naaris across 5 states** to step into the new world of work.

Robb Report INDIA

"Nimaya Is Teaching India's Young Women To Use AI Before The World Uses It Against Them"

"Nimaya empowers women with soft skills that will help them outrank AI at the workplace"

**Most students believe College Degree = Job.
Spoiler Alert: *They're Wrong.***

Imagine yourself: 3rd year.
Marks: Top-scorer. Plan after graduation: none.

Everyone has an opinion.
Nobody has an answer.

You Googled it at 1am. You came away more confused.

You almost don't scan it.
→ **YOU ARE HERE**

Here's a glimpse of the 16+ *future forward* Skills waiting for you

PILLAR 1

Co-Creating with AI

- Fundamentals of GenAI: how it thinks, and how to make it work for you
- Prompting and co-creating with AI
- 5+ AI tools like Claude, ChatGPT, Canva AI, NotebookLM and more
- Build your own chatbot and your own AI agent, from scratch

PILLAR 2

Human Skills to Win at Work

- Storytelling that makes every word work for you
- Mastering Jugaad and solving problems the way AI never can
- Smart thinking habits: staying one step ahead of problems
- Emotional intelligence and practical workplace wisdom

PILLAR 3

Getting Career Ready

- Personal branding on LinkedIn and offline
- Your First 90 Days: Surviving & Shining in a New Job
- When AI needs to be told NO + Mapping your Career Kundli
- Winning as a Woman in the World of Work

The Schedule

Timings

2 hours per session, 20 sessions

Format

32 hours in-person, 8 hrs virtual

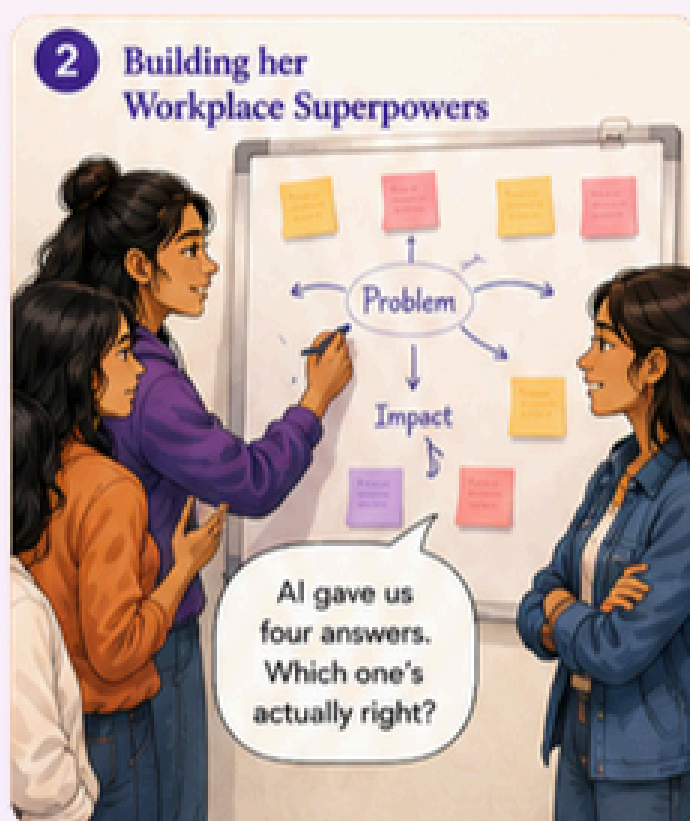

Cost

Absolutely NO fees except your time, effort and commitment;

You Start Learning

Building your own AI agent to handle your routine work

Using AI to research customers and design a marketing plan for a real business

Understanding how to use LinkedIn & networking to your advantage

Learn through roleplay : 80% action & only 20% gyaan

ChatGPT learns in 3 minutes what took you 3 years in college. So we won't waste your time teaching you to memorise.

Sessions you do, not sit through

Every class is packed with activities where you apply what you just learned.

Roleplays and workplace simulations

You'll rehearse the hardest moments of a job before you ever have to live one.

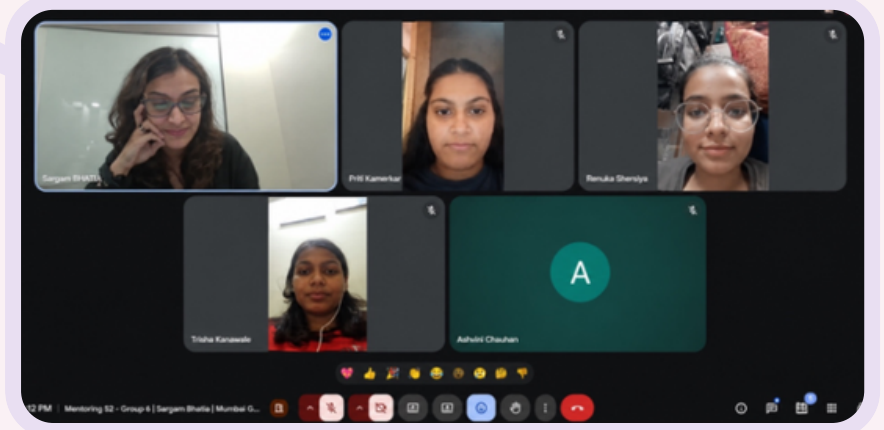

Live industry projects

Solve real business challenges alongside companies like PepsiCo and Jio Communications Ltd. Past Naaris presented their marketing strategy at the PepsiCo head office.

One mentor for every 5 Naaris

top leaders from the corporate world who share their experiences and mantras for building a successful career.

Mentoring Session with Ms.Sargam Bhatia, Assistant General Manager Marketing, L'oreal Paris

Your Nimaya Naari App

Practice between sessions and keep every AI agent and campaign you build saved in one place to show employers.

You Practice For Real

1 ROLEPLAY

Roleplay. Your first difficult boss will be a friend in a costume.

2 MENTOR SESSION

Your mentor will tell you their real career story, not the LinkedIn one.

3 LIVE INDUSTRY PROJECT

You will execute a live brief from an actual company.

Beyond the classroom ✨

You're a GenAI Ready Naari if you :

- ☐ Think beyond degrees and you know marks alone won't cut it
- ☐ Are ambitious, and want to do work that actually matters
- ☐ Are determined to succeed, whatever your circumstances right now
- ☐ Have access to a smartphone
- ☐ Can communicate in basic English
- ☐ Are committed to attending all sessions
- ☐ Are in your 2nd or 3rd year of college, or actively looking for a job

Ticked most of these? **You're already halfway in.**

One thing we won't soften: this program asks for your full attendance. 20 sessions, no shortcuts. Seats are limited and we want them going to women who'll use them.

What you walk away with:

1 credit upon successful assessment, which may be recognised by your college towards your degree

A certificate carrying the IndiaAI logo: proof, not just a claim

Placement and training support

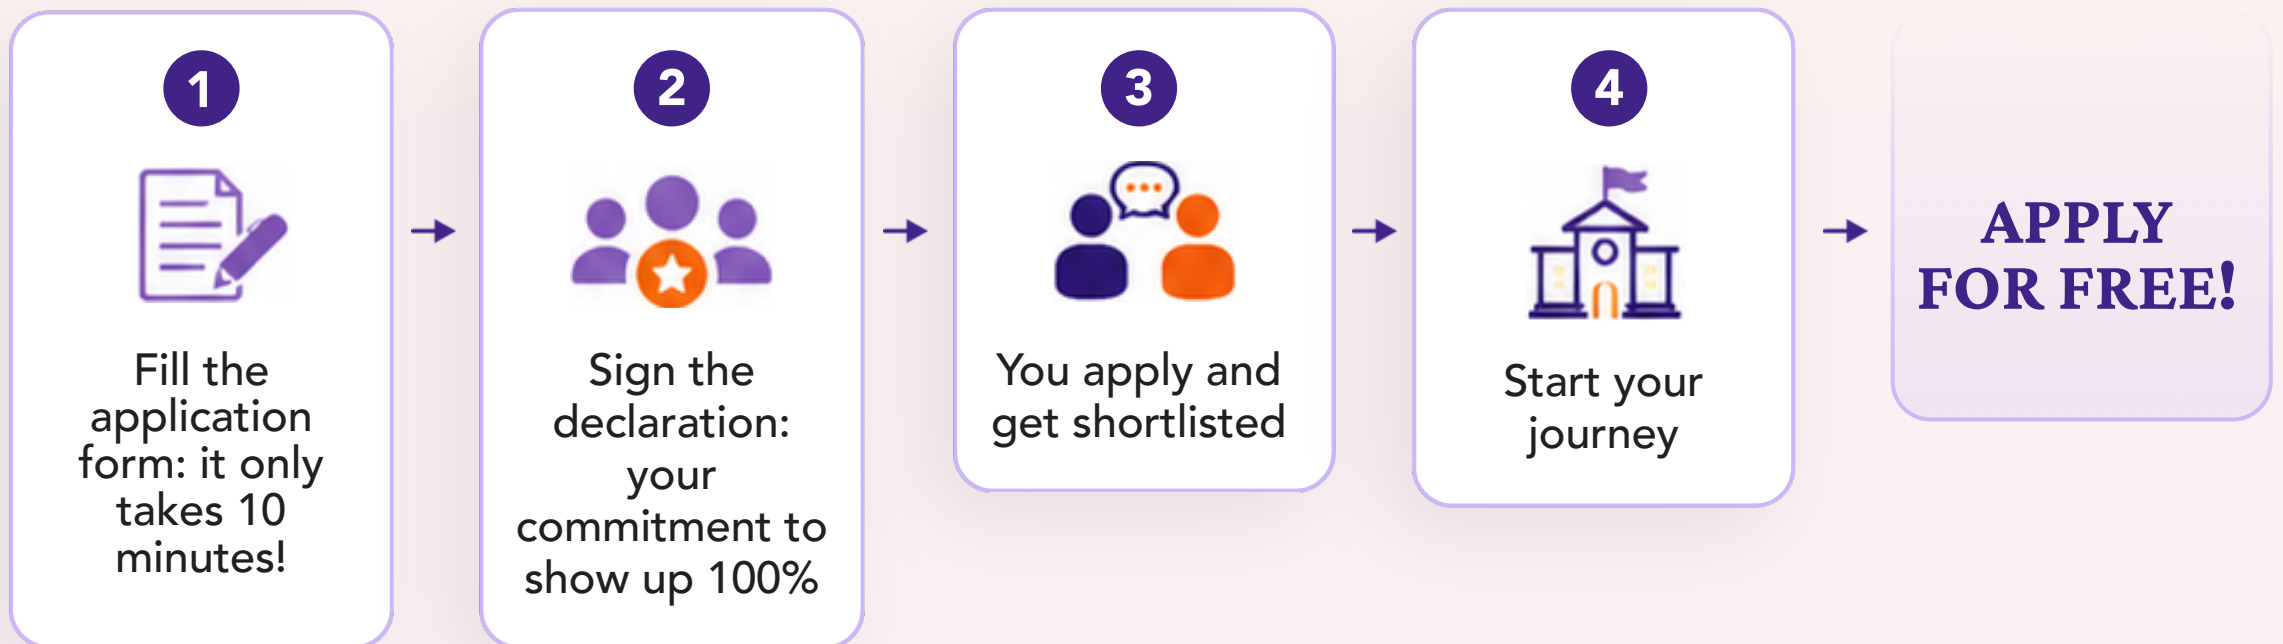

Training starts on your campus

How to Apply? ✨

Your journey to becoming a GenAI Ready Naari *starts here*!

Follow these Four steps:

FAQs

I'm not from a tech background. Can I still do this?

Yes. We teach AI in plain, simple language with no difficult tech words, no assuming you already know things. We start from zero. If you can use a smartphone, you can do this.

Will this clash with my college classes?

No. We build the timetable around your college schedule. Each session is just 2 hours.

What if my English isn't very good?

You need to be comfortable in English, not perfect.

What if I miss a session?

We ask for 100% attendance, and we mean it. Every session builds on the last one so think it through before you apply.
