WHY CHOOSE ANYLUX?

- ✓ Reliable & Stable Power Output
- ✓ IP68 Waterproof Protection
- ✓ Multiple Built-In Protections
- ✓ High Efficiency
- ✓ Durable Construction
- ✓ Made in Korea - Trusted Quality

DESIGNED & MANUFACTURED IN KOREA

ANYLUX LED POWER SUPPLY — **KOREAN-MADE QUALITY**
FOR PROFESSIONAL LED SIGNAGE & LIGHTING.

PREMIUM QUALITY YOU CAN TRUST

LED WATERPROOF POWER SUPPLY

12V SERIES | 60W / 120W / 200W

Product Introduction

A durable and reliable 12V power supply designed for LED lighting and signage applications. Featuring a protective waterproof housing and stable DC output, it is ideal for powering LED strips, channel letters, light boxes, and other indoor or outdoor lighting installations.

Available Wattages

- 60W
- 120W
- 200W
- DC 12V Output

PRODUCT FEATURES

- Stable DC 12V power output
- Multiple wattage options
- Protective outer housing
- Designed for continuous LED applications
- Compact and practical construction
- Easy integration into signage systems
- Suitable for various LED modules and LED strips
- Cost-effective alternative for commercial signage projects
- Suitable for indoor and applicable outdoor installations when properly protected and installed

SLIM LED POWER SUPPLY

COMPACT 12V LED DRIVER

Product Introduction

A compact and space-saving **DC 12V LED power supply** designed for LED signage applications where installation space is limited.

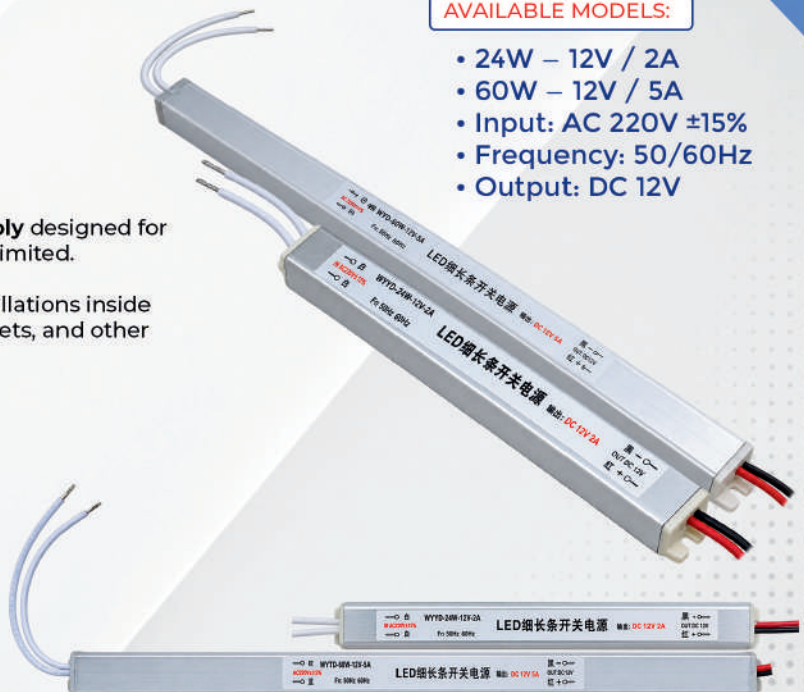

Its **slim aluminum housing** makes it suitable for installations inside narrow channel letters, shallow lightboxes, sign cabinets, and other compact LED lighting systems

PRODUCT FEATURES

- Ultra-slim aluminum housing
- Compact and lightweight design
- Stable DC 12V output
- Space-saving installation
- Suitable for narrow signage applications
- Easy wiring and installation
- Multiple wattage options
- Suitable for LED modules and strips
- Practical solution for signage fabrication
- Economical choice for standard LED applications

AVAILABLE MODELS:

- 24W – 12V / 2A
- 60W – 12V / 5A
- Input: AC 220V $\pm 15\%$
- Frequency: 50/60Hz
- Output: DC 12V

IMPORTANT INSTALLATION NOTE:

Select the correct power supply capacity according to the total wattage of the connected LEDs. For improved reliability and service life, sufficient power allowance should be provided rather than continuously operating the power supply at its maximum rated capacity.

CUTTING

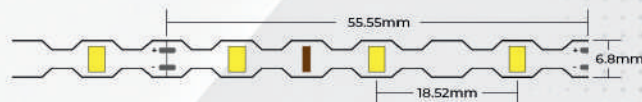

Cuttable every 3 LEDs

FEATURES

- ✓ High-brightness LED design for strong and uniform illumination
- ✓ Copper bracket design for improved performance
- ✓ High-viscosity adhesive for secure installation
- ✓ Unique T-shaped / zigzag pattern allows easy bending
- ✓ Flexible design for curved and custom-shaped applications
- ✓ Available with IP20 and IP67 (spray glue) protection
- ✓ Suitable for indoor and outdoor signage applications
- ✓ Designed for easy installation and cutting
- ✓ Available in multiple colors and white-light temperatures

DIMENSIONS

CUT POINT

Every 3 LEDs can be cut

CORRECT CONNECTION

Connect the LED modules according to the indicated positive (+) and negative (-) terminals.

WRONG CONNECTION

Do not reverse the polarity when connecting the LED modules.

APPLICATIONS

LED MODULES

High Brightness • Low Power Consumption • Long Lifespan

Ideal for lighted signage, channel letters, light boxes, backlit signs, and other advertising applications.

LED NEON APPLICATIONS

Indoor Signs

Ideal for decorative wall signs, reception signage, interior branding, and displays.

Outdoor Signs

Suitable for illuminated storefronts, business signage, and selected outdoor applications.

Letters & Logos

Flexible neon can follow custom shapes, lettering, logos, and detailed designs.

Decorative Lighting

Creates colorful and eye-catching illumination for commercial and decorative installations.

Storefronts

Ideal for restaurants, cafés, retail stores, bars, salons, and other commercial establishments.

KEY FEATURES

PREMIUM QUALITY

Reliable and durable materials for professional signage applications.

VIBRANT ILLUMINATION

Bright, consistent, and eye-catching lighting in multiple color options.

EASY INSTALLATION

Designed for efficient fabrication, installation, and maintenance.

BUILT TO LAST

Suitable for long-term signage and advertising applications.

SINTRA BOARD

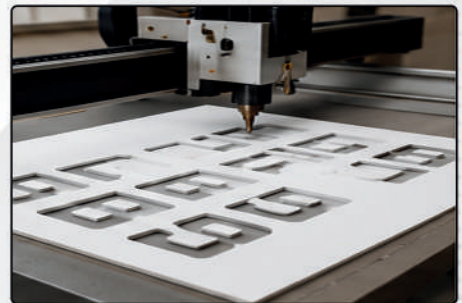

LIGHTWEIGHT • DURABLE • VERSATILE

SINTRA BOARD (PVC FOAM BOARD) is a lightweight yet rigid material with a smooth, matte surface. It is easy to cut, shape, print, and fabricate making it ideal for a wide range of signage, display, advertising, and interior applications.

AVAILABLE SIZES(THICKNESS)

WIDE RANGE OF APPLICATIONS

FEATURES

- ✓ Smooth matte white or black surface
- ✓ Excellent for UV printing and vinyl application
- ✓ Lightweight yet highly durable
- ✓ Suitable for indoor and selected outdoor applications
- ✓ Easy to cut, drill, route, and shape
- ✓ Easy to fabricate using common signage tools and machines
- ✓ Water resistant and non-corrosive
- ✓ Can be printed, laminated, painted, or applied with stickers

CUSTOM SIZES, SHAPES & CNC CUTTING AVAILABLE UPON REQUEST

Suitable for signage, advertising, displays, DIY projects, dimensional letters, custom fabrication, and more.

ACRYLIC

PREMIUM QUALITY ACRYLIC SHEETS

High clarity, excellent durability, and vibrant color options. Ideal for signage, displays, fabrication, laser cutting, engraving, and a wide range of indoor and outdoor applications.
