

ISIS MARQUES

■ UI/UX Designer • Product Designer

Hi! I'm an Italian-Brazilian citizen, with a brief adventure period in Poland.

I'm looking for UI or Product Design positions in both website and mobile environments. I value User Experience and, combining my empathetic and business-centered point-of-view, I design accessible and beautiful user interfaces.

EXPERIENCE

Product Designer

Scalestack, USA (Remote) 07/2024 – present

- Redesigned the company's platform, delivering a cohesive user experience while aligning with business goals;
- Development and implementation a new design system;
- Led usability testing initiatives with internal users, gathering actionable feedback to optimize workflows and improve user satisfaction.

UI Designer

Fetchly Labs, USA (Remote) 05/2021 – 07/2024

- Design the aesthetics to be implemented within a website or product according to the client's brief and requirements;
- Create overall concepts for the user experience within a business webpage or product, ensuring all interactions are intuitive for customers;
- Create prototypes to catch design weaknesses and perform usability testing;
- Contact with PMs, QA and developers;
- Interface with clients to showcase projects and gather feedback.
